

Dura-Plast Frames from GM Wood Products are an innovative new alternative to traditional wood door jambs. A poly-fiber door-frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot, and insect resistant. This unique formulation means that Dura-Plast Frames will not absorb or wick moisture and will never warp, splinter, or rot. And the advanced Dura-Plast Frames system can be machined the same way as traditional wood jambs with no added hassles. Plastpro the manufacturer of Dura-Plast Frames, provides a limited lifetime warranty which guarantees a long-lasting, rot-free entryway that will maintain its integrity today, tomorrow, as well as years down the road.
