## THE 2023 *THE CRAFTED COLLECTION*

The Crafted Collection from Wilsonart® Solid Surface brings natural appeal and prestige into every space. From the soft veins of Carrara marble and the organic presence of soapstone, to the rare beauty of Calacatta stone and the allure of Statuario marble, this selection offers intriguing and unique expressions to make your vision come to life.

Adding even more ease to every day, Solid Surface requires little effort to maintain its beauty. This repairable and renewable surface is virtually seamless, thermoformable, non-porous, and designed for exceptional durability.

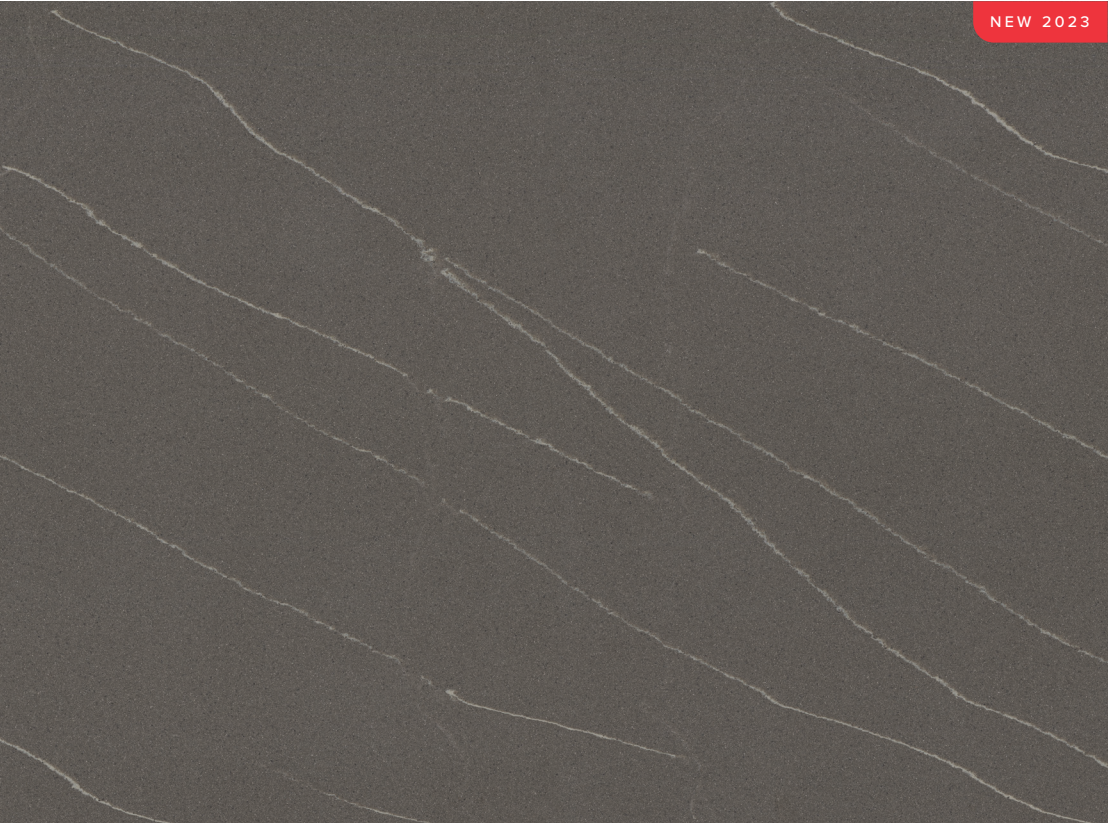

NEW 2023

CALACATTA  
PERLATO

The pearlescent silver-gold veins of Calacatta Perlato appear to dance in the light. When backlit, the warm background of this translucent design reveals additional vein features and vivid depth. Naturally reveal your creative side with the soothing, transformative presence of Calacatta marble in every elevated space.

NEW 2023

CARBONE  
MARMO

Carbone Marmo captures the aesthetic of soapstone with a charcoal grey background that features subtle particulates, soft vertical veins, and silver-metallic dust. Soapstone has a rich history as an architectural and artistic marvel — and in modern interiors, it lends a warm, inviting look for a wide variety of décor styles.

## CARRARA EMPORIO

Characterized by bright tones and feathery veins of grey, Carrara stone originates in the mountains of Italy. The Crafted Collection's Carrara Emporio is inspired by this stone, with its foggy veins of cool grey and its bright, translucent background. This design will add comfort and softness to your interior.

## MONTE AMIATA

The northern mountains of Italy are renowned for their prestigious and stunning Calacatta marble. With a backdrop of bright white veined with dynamic grey, Monte Amiata embraces this effect for an unexpected melding of vibrance and tranquility.

Prized for its distinctive veining, Statuary marble serves as the inspiration for Ice Statuario. Medium-sized particulates in bright white and cool grey create depth, while long, thin, and active veins in soft to dark cool greys traverse the slab diagonally. The overall effect is composed and energetic.
