WARREN BROTHERS SASH AND DOOR

Warren Brothers Sash and Door, a division of America's leading distributor, Rugby Architectural Building Products, is the oldest and most trusted supplier of quality millwork products to the Middle Tennessee, Northern Alabama, and Western Kentucky markets.

Founded in 1853 by Jesse Warren and Joseph Moore, Warren Brothers began as a millwork machine shop in Nashville. Using steam power and the era's most modern equipment, the business quickly grew to produce massive quantities of balusters, newels, sashes, doors, blinds, mouldings, and dressed lumber.

In 1874, Jesse's sons Jesse Warren Jr. and Joseph Warren continued their father's tradition and established Warren Brothers Company. In 1967, Pacific Mutual Door and Window purchased Warren Brothers, which continues to operate as an independent branch of its parent company. In October 2019, PMD was acquired by Hardwoods Distribution Incorporated (now known as ADENTRA).

After many decades of wholesale millwork distribution to its many fine customers in the mid-South, Warren Brothers strives to approach the future with the same pioneering spirit that guided Jesse Warren in the 1850s. Today, Warren Brothers is a leading millwork supplier to the construction and remodeling industries, offering a wide range of products, including doors, windows, mouldings, and stair systems.

MOULDING AND TRIM

We offer millwork in a variety of brands from a multitude of wood species. If you can't find what you're looking for, we can make it.

All of our stock mouldings are milled and sanded on-site by our millwork specialists. Stock mouldings are available in pine, oak, poplar, finger joint, primed, and MDF.

NEXT DAY DELIVERY available in most of our service areas.

Order by 5pm and get your order next day.

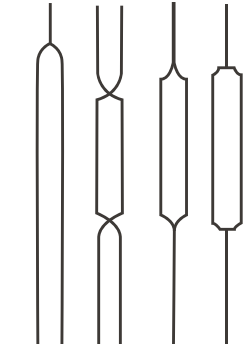

METAL PARTS

Powder coated and stainless-steel stair parts are available in various styles and finishes.

4000S SERIES SHAKER

The 4000 door series is an exterior door offered in a number of styles and designs. Door size, configuration, and wood species can be customized.

The 4000 door designs come in both wood panel and glass panel options. These door designs tend to lean more toward a craftsman, modern, and coastal look and feel.

GLASSCRAFT[®]

DOOR COMPANY

PRO-SERIES | FiberCraft[®] Composite

This door features a high-definition cherry woodgrain on both 6'8" and 8'0" tall doors with a rot-free composite bottom rail and lock-blocks on both door edges.

FEATURES & BENEFITS

- The core of the door is filled with a 2-pound density urethane foam for insulation performance
- Water-blown foam
- Solvent-free finishing system
- Limited 5-year warranty

WOODCRAFT HARDWOOD

GlassCraft's WoodCraft hardwood door line includes entry doors with unique premium options at an affordable price.

FEATURES & BENEFITS

- Extensive door design and decorative options
- Best value at any price point: Premium Portobello, Estancia Knotty Alder, and Pro Series DoorCraft
- Stunning wood finishes in traditional, antique, and distressed options
- Windstorm approved options

GLASSCRAFT[®]

DOOR COMPANY

PREMIUM-SERIES | FiberCraft[®]

They are constructed with full length, full width door stiles built into both long side edges of the door to virtually eliminate thermal warping and deflection in cold or hot weather.

FEATURES & BENEFITS

- Top and bottom rails utilize 100% recycled composite content; rot-resistant and waterproof
- Insulated with BioFoam[®], a 3-pound foam which is 50% more dense than Pro-Series
- A lifetime warranty on the door slab and a 5-year warranty on the door finish

PORTOBELLO[®] CONTEMPORARY

The Portobello[®] Mahogany Series offers the widest selection of premium hardwood doors, sidelites, and transoms, with unique engineered technology for superior door construction.

FEATURES & BENEFITS

- True Flush Glazed glass panels
- Premium engineered wood core construction
- Double-glazed insulated safety glass
- Glass options and metal grid options

NARROW PROFILE SERIES

NP-Series fiberglass doors are available as slabs or pre-hung in single and double door configurations with all composite components.

FEATURES & BENEFITS

- NP-TDL Series and NP-SDL Series available
- Smooth modern surface
- Solid core construction
- Reinforced stiles on both door edges
- Includes Multipoint locks standard
- Solvent-free finishing system
- Very low VOC finishing process

CRAFTSMAN | SDL DOORS

Constructed with interlocking muntin bars that lock into place for a stronger, more structurally sound assembly.

FEATURES & BENEFITS

- No raised moulding
- Precision-cut bars that fit seamlessly together for improved performance and appearance
- Dentil shelf option
- Customizable size and door options

FLUSH WOOD COMPOSITE

Keep it simple. Dependable, economical doors that combine strength and beauty.

FEATURES & BENEFITS

WINDOW STYLES

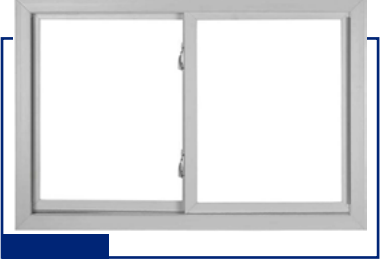

Double Hung Windows

Opens from the bottom or lowers from the top. It also tilts in so you can clean your window from the inside of your home.

Single-Hung Windows

They can be raised from the bottom to allow airflow, while the top of the window remains stationary.

Slider Windows

Easy to use, slider windows glide open from either the left or right and provide a wide view of your outside landscape.

Casement Windows

A great window for the hard to reach areas of a home. These windows open easily with a crank operating system.

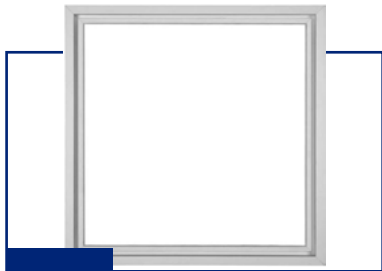

Awning Windows

Hinged at the top and designed to open outward. They open and shut easily with the turn of a crank handle.

Bay or Bow Windows

These windows project outward, creating more space inside and major curb appeal outside.

Picture Windows

One of the most energy efficient of all windows, picture windows provide a wide open view and come in a variety of sizes, so they can fit any space in your home.

Geometric Windows

Design a unique look to add character to a home. Use these windows to create a focal point in a house or add more light to an area.

Garden Windows

90-degree corner units are fixed in place, and are available with a glazed corner post or open with no corner post for virtually unobstructed sightlines.

REPLACEMENT WINDOWS

Ply Gem offers a vast selection of replacement windows for every budget.

WINDOW MATERIALS

- Vinyl
- Aluminum-clad wood
- Aluminum
- Wood composite

ALUMINUM-CLAD WOOD

Featuring the stylish warmth of a traditional wood window with an exterior protected by the remarkable durability and strength of extruded aluminum.

Aluminum-clad wood windows are virtually maintenance-free and can be customized to complement the any style.

VINYL WINDOWS

The premium vinyl is durable and easy to maintain. The thermal performance of vinyl is superior to many other window materials which means greater energy efficiency.

Colors are engineered into the vinyl for long-lasting beauty, color retention and minimal window maintenance.

A-SERIES WINDOWS

Available in a wide range of exterior colors, trim choices, natural wood species, painted interiors, and factory-finished stain options.

FEATURES & BENEFITS

- Energy efficient
- Triple-pane glass and HeatLock® technology
- Beautiful interior wood species, with fiberglass and composite exteriors that won't peel, blister, fade or corrode, and resist water while sealing out the elements, and water infiltration

WINDOWS BY TYPE

- Awning
- Casement
- Double-hung
- Picture
- Specialty

200 SERIES WINDOWS

This streamlined selection of windows and patio doors delivers quality at an uncommon value while still offering ample choices.

FEATURES & BENEFITS

- Beautiful wood interiors combine with virtually maintenance free exteriors
- Wood with a vinyl exterior to resist water and seal out the elements
- Energy-saving glass for any climate
- Available only with double-hung, gliding, or picture window styles

100 SERIES WINDOWS

100 Series windows are made of strong, eco-friendly material.

FEATURES & BENEFITS

- These are available in dark colors with finishes that are made to last
- Environmentally responsible and energy efficient
- Made of innovative Fibrex® composite material, which is 2X stronger and can withstand temperatures up to 150°

WINDOWS BY TYPE

- Awning
- Casement
- Gliding
- Picture
- Single hung
- Specialty

400 SERIES WINDOWS

This series comes in nearly all window styles, including casement, double-hung, awning, sliders, bays and bows, and picture windows.

FEATURES & BENEFITS

- Customizable options
- Low-maintenance
- Energy efficient
- Easy operation
- Strength that lasts
- Weather resistance

DOOR COMPONENT SOLUTIONS

Complete a door system with components engineered to work.

PRODUCT LINE

- Sills and sealing systems
- ADA sill solutions
- Auto-adjusting thresholds
- High-performance astragal solutions for French doors
- Rot-proof exterior door frames
- Weather sealing
- Thresholds
- Door sweeps
- Miscellaneous hardware

GATES

For secure access onto a deck, aluminum AFCO-Rail has a gate to fit any requirement.

FIXED GATE

All-aluminum, welded fixed gate comes pre-assembled in common gate sizes.

ADJUSTABLE GATE

Adjustable gate kits can be paired with a section of Series 100, 125 or 300 level rail to accommodate custom widths.

OPTIONAL ACCESSORIES

Spring-loaded, self-closing hinges, keyed gate latch and top pull safety latch.

PANOLOCK®+ MULTI-POINT LOCK

One-of-a-kind multi-point lock that works with off-the-shelf hardware, supports a forgiving installation, and offers lasting performance, all at an affordable price point.

PERFORMANCE MEETS STYLE

- Whether knob, lever, or thumbpress, PanoLock Plus is compatible with most off-the-shelf hardware. Including electronic deadbolts
- Available at an affordable price point, PanoLock+ can be used in more projects and budgets
- Supports a more forgiving install and smoother everyday use with tapered bolts and adjustable roller strikes
- Enjoy enhanced performance and security with three locking points

POSTS

With various aesthetic styles and mounting configurations, aluminum AFCO-Rail Posts are the definition of structure and style.

POST-TO-POST STYLES

A traditional style in which the top rail runs directly into the face of the post.

OVER-THE-POST STYLES

Top rail bracketry mounted to the top of the post, giving the appearance of a continuous top rail run.

CABLE RAIL POST

Pre-drilled 3" aluminum posts available for both line and corner applications.
