

# Decorative Surfaces & Architectural Decor Panels

# DECORATIVE SURFACES ARE USED EVERYWHERE

Today, residential and commercial interior designers have available to them a broader range than ever before of decorative surfaces and use them to create innovative, emotive and functional interiors.

Decorative surfaces are used on virtually every type of exposed surface be it kitchen, bath and storage cabinets, office or residential furniture, and increasingly on feature walls, all of which combine to create the desired living or work environment. Our surfaces are available in natural wood, reclaimed wood, and composite or synthetic. Synthetics may be deeply embossed to provide textures that mimic mother nature or satiny smooth or high gloss to reflect light and enhance color.

Our **decorative surfaces** address a broad range of criteria important to designers and end-users: design, color, surface texture, quality, functionality, and durability. Material cost and life cycle costs are also a factor in determining which material is best suited for an application. A final and very important consideration is the very reliable suppliers standing behind our products ensuring the timely supply of top quality and consistent materials.

We invite you to review our **decorative surfaces** collection and encourage you to meet with our very knowledgeable staff to discuss all supply options.

**DRAGON PLY®**  
PREMIUM HARDWOOD PLYWOOD

## DRAGON PLY PANELS NOW FEATURE ANTIMICROBIAL UV FINISH

Dragon Ply UV prefinished panels now feature Antimicrobial protection in addition to its many other value-added attributes that make it the best in the industry.

**SUPERIOR** surface quality. 100% of Dragon Ply SMART production utilizes a multi-step calibration lamination.

**MATERIALS** are the first step in ensuring consistent top quality plywood. Face veneers are individually inspected by our Quality Control staff.

**ANTIMICROBIAL UV** technology uses a nano silver ion antibacterial agent to provide users with additional peace of mind. This laboratory tested UV options kills 99.9% of bacteria.

**RELIABLE** performance in every panel. Quality Control staff rigorously inspects products from around the globe to ensuring Dragon Ply SMART delivers the most reliable performance.

**THICKNESS** tolerance. Dragon Ply SMART thickness tolerance is +/- 0.3mm. This is two times more stringent than ANSI/HPVA standards.

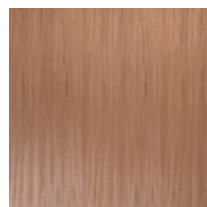

## HARDWOOD PLYWOOD

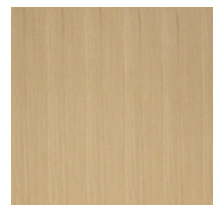

- Imported from Europe
- Consistent color – sort and match color for consistency
- White Oak is available in the following:

- Formaldehyde emission is 0.02 mg/L, which meets E1 emission regulations and CARB II standards
- ABX, ACX, BCX grades available
- Renewable Resource
- Plantation Grown Wood

# HARDWOOD AND SOFTWOOD LUMBER

## WHAT YOU BUY IS WHAT YOU GET... NOT 7% LESS

In our business, one learns quickly that “grade x” from one company can be different from “grade x” from another. The need to compare “apples to apples” is essential. We follow the National Hardwood Lumber and Plywood Grade Standards. It’s not a comprehensive grade guide because rules vary depending on the species, but it can be used to compare our products with our competitors.

**IF YOU HAVE SPECIFIC GRADING  
QUESTIONS, PLEASE CONSULT  
WITH YOUR PAXTON SALES  
REPRESENTATIVE.**

## MOULDINGS

Paxton’s modern equipment and experienced mill staff create beautifully crafted mouldings quickly and cost effectively

In our business, one learns quickly that “grade x” from one company can be different from “grade x” from another. The need to compare “apples to apples” is essential. We follow the National Hardwood Lumber and Plywood Grade Standards. It’s not a comprehensive grade guide because rules vary depending on the species, but it can be used to compare our products with our competitors. If you have specific grading questions, please consult with your Paxton Sales Representative.

## ARCHITECTURAL MOULDINGS

Custom millwork is our specialty. From traditional baseboard and casing to custom architectural profiles, our experienced personnel are able to produce mouldings in almost any hardwood or softwood species.

## INVENTORY

We stock millions of dollars of product that is immediately available. Let our warehouse be an extension of your business.
