DECORATIVE SURFACES ARE USED EVERYWHERE

Today, residential and commercial interior designers have available to them a broader range than ever before of decorative surfaces and use them to create innovative, emotive and functional interiors.

Decorative surfaces are used on virtually every type of exposed surface be it kitchen, bath and storage cabinets, office or residential furniture, and increasingly on feature walls, all of which combine to create the desired living or work environment. Our surfaces are available in natural wood, reclaimed wood, and composite or synthetic. Synthetics may be deeply embossed to provide textures that mimic mother nature or satiny smooth or high gloss to reflect light and enhance color.

Our **decorative surfaces** address a broad range of criteria important to designers and end-users: design, color, surface texture, quality, functionality, and durability. Material cost and life cycle costs are also a factor in determining which material is best suited for an application. A final and very important consideration is the very reliable suppliers standing behind our products ensuring the timely supply of top quality and consistent materials.

We invite you to review our **decorative surfaces** collection and encourage you to meet with our very knowledgeable staff to discuss all supply options.

NEW
COLLECTION

INTRODUCING EGGER DECORATIVE COLLECTION 24+

This highly anticipated collection is packed full of luxurious textures, tactile material decors, and contemporary solid colors. The Decorative Collection is well known in the industry for its strong sustainability credentials, exceptional customer service, and market leading product innovation.

FEELWOOD SYNCHRONIZED PORE (EIR) ON TFL

EGGER's Feelwood range of decors specially designed with multi-layers of papers to create a depth of texture often seen with solid wood. These decors represent the premium category among the 86 TFL decors in the EGGER North American Collection.

AVAILABILITY GUIDE

The future has arrived. PerfectSense lacquered boards are much more than a conventional melamine-faced MDF board. They epitomise the next generation of matte or gloss textures and represent a new premium standard of board.

Manufactured using a sophisticated lacquering process that is applied with precision to the surface, PerfectSense Gloss offers an exceptional reflective effect and smooth finish. PerfectSense Matt, by contrast, feels warm and velvety. Compared to many other lacquered boards, they are both scratch resistant and robust.

BENEFITS

- Large board format of 110" x 81.5"
- High depth effect with mirror gloss or velvety finish supports economic manufacturing
- High resistance to micro-scratches ensures long lasting brilliant surface
- Antibacterial surface property according to ISO 221

STOCK OPTIONS

Exact matching TFL, HPL and Edgebanding are available through Hardwoods as your one stop shop. Exact match edgebanding and laminates eliminates the need to source a close match.

In-stock colors are available on your next delivery, with the top decors stocked here in Midwest, and all 86 North American decors available within 3 - 4 weeks.

PREMIUM HARDWOOD SHEET VENEER & EDGE BANDING

Veneer Technologies, Inc. manufactures high end decorative hardwood veneer faces. They carry most domestic species and have access to many exotic species from around the world. They currently operate ten continuous cross feed splicers, producing approximately 6.5 million finished square feet of face veneer per month.

Sheet Veneer

Manufactured with a select grade face veneer crosslinked to a variety of backers. Backers include 10 mil, 20 mil, 2-ply with cross-grain back, 3M peel-n-stick, polyback, true phenolic. Sizes are 4' x 8', 4' x 10', 4' x 12'.

MANY DOMESTIC AND EXOTIC SPECIES AVAILABLE

Wood Edgebanding

- Standard wood edgebanding
- 500' rolls, fleeced and sanded
- 250' rolls, preglued EVA hotmelt
- UV prefinished, preglued or fleece backed
- Widths ½" to 2"
- Custom widths and lengths available

Melamine Edgebanding

- Standard colors
- 250' rolls
- Preglued

Thick Wood Edge Rolls

- 328' rolls. Thickness 1mm, 1.5mm, 2mm and 3mm

 Please inquire about available widths and species

Birchland is one of North America's leading producers of hardwood plywood and veneer. BPV offers customizable high-end wood panel product manufacture using state-of-the-art machinery and the highest quality control standards available in all stages of the product line. Our unique production method allows us to produce enough to handle high volume jobs, but enough control to handle specialty projects where precision is key. All Birchland panels consist of a core as well as a face and back veneer.

- Birchland can produce panels in various sizes from 33 inches to 5 feet in width and 6 to 12 feet in length
- Birchland can produce panel thicknesses ranging from 1/8" to 1-1/2"
- Birchland can produce and sand both regular and cross grain panels and veneers
- Available backers: 10-30 mil paperback. Poly backing and phenolic backing available

Roseburg is a leading manufacturer of domestic hardwood plywood with an offering that includes all of the common hardwood species. Roseburg's SkyPly® decorative hardwood plywood panels are produced from the finest hardwood veneers that are hand-selected for quality and consistency prior to being laminated to the underlying core. Featuring a range of beautiful hardwood veneer faces, types of veneer cuts and matches and a huge range of core options engineered for different applications, SkyPly is ideal for cabinetry, furniture, custom casework, fixtures and wall panels.
