Unlike other pocket systems, the CS Cavity Slider® and CS Cavity Slider® Ultimate are structurally robust due to their construction from aluminum extrusions. Both suitable for residential and commercial projects meeting Type 1 construction code. Each product is supplied as a kitset and easy to assemble and install.

CS Cavity Slider®

- made to suit a 4" stud size but can be furred out to suit wider wall conditions
- can accommodate 1-3/8" and 1-3/4" doors up to 4'0" x 8'0" in size
- can be cut down on site

CS Cavity Slider® Ultimate

- made to suit a 5-1/2" stud size but can be furred out to suit wider wall conditions
- can accommodate 1 3/8" to 2 1/4" thick doors up to 5'0" x 10'0" in size
- can be cut down on site
