

June 21, 2024

Dear CertainTeed Roofing Customer,

Shadow Ridge – Now UL 2218 Class III Impact Rated

CertainTeed is excited to announce that our **Shadow Ridge is now UL 2218 Class III Impact Rated.**

Shadow Ridge products that were manufactured from April 2024 and beyond are officially classified as UL 2218 Class III Impact Rated.

Labeling and packaging requirements will be updated throughout 2024 as a rolling change.

There is no impact to current inventory, and this will not cause a Do Not Mix situation.

Our Shadow Ridge is available in a variety of colors that complement our Landmark® and Landmark® Pro family of products which are now also UL 2218 Class III Impact Rated.

As always, we thank you for your continued support of CertainTeed Roofing. If you have any questions, please contact your local CertainTeed Roofing Territory Manager.

Sincerely,

Lakia Cochrane
Product Manager Residential Roofing Accessories
CertainTeed Roofing
