AGT at a glance

Founded in 1984, AGT is one of the world's leading manufacturers of furniture components, producing MDF, decorative panels, timber mouldings (profiles) and flooring. AGT operates from a purpose-built 400 thousand square meter facility in Antalya, Turkey.

AGT panel, produced with AGT's own MDF, offers unique design alternatives. It can be used for kitchens, furniture, wall panels and more. We're happy to provide you with 3 distinct finishes: **Soft Touch, High Gloss and Supramat**.

Soft Touch Panels

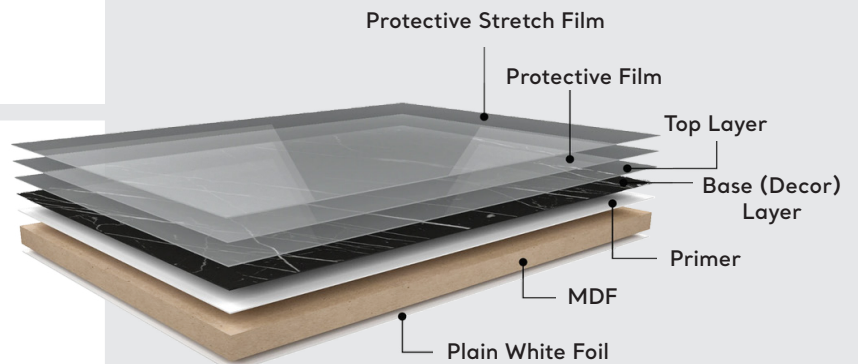

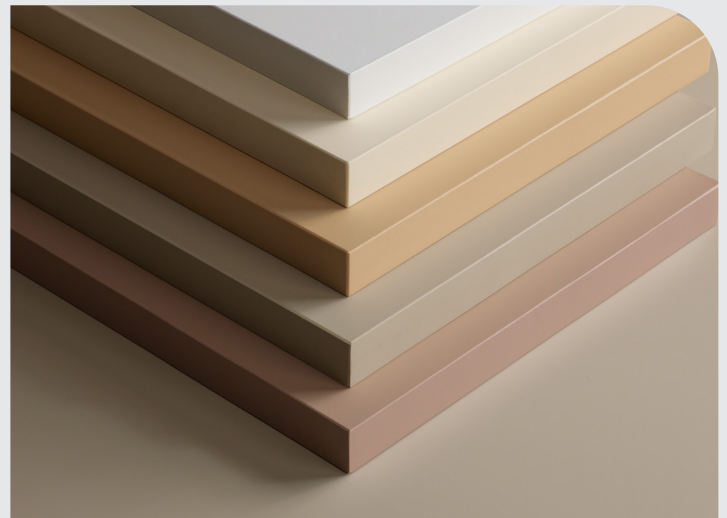

Soft Touch panels have a contemporary, matte finish. The tough surface resists water, scratches, impact and light fading. And because the surface doesn't reflect light, fingerprints and marks are barely noticeable.

High Gloss Panels

AGT High Gloss rivals the beauty and quality of a lacquered kitchen. The high-shine surface will reflect light around the home and is very easy to clean.

Supramat Panels

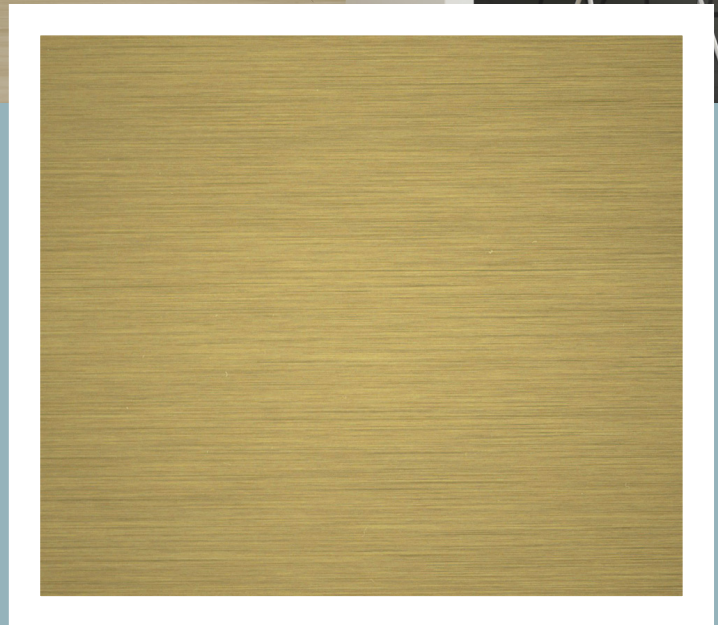

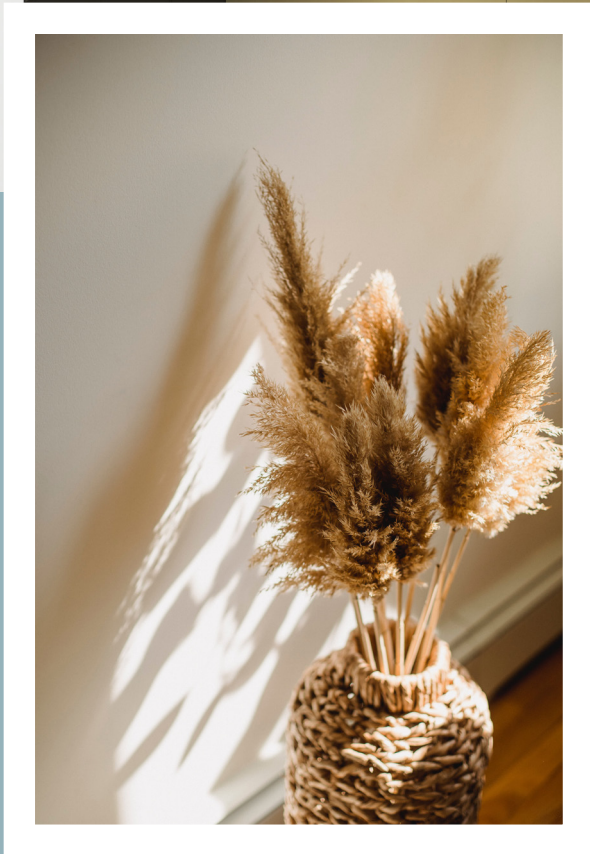

AGT Supramat showcases your creativity in your designs with its scratch-resistant structure, silky touch feeling, fingerprint-free surface and many other attributes.

Soft Touch, Supramat and High Gloss by AGT

Choose from 24 different visual and tactile experiences! Add contemporary aesthetics and elegance to cabinetry and surfaces throughout the home.
