

Simple. Natural. Hardwoods.®

nwh.com

Simple. Natural. Hardwoods.

Three words that capture the essence of an entire company.

Simple – we handle all the complexities that go into buying hardwoods to make life easier for our customers.

Natural – we deliver only beautiful and sustainable products.

Hardwoods – NWH defines what the hardwoods experience should be. Professional, caring and committed across every aspect of our business, we put customers at ease while giving them a real competitive advantage.

We're Serious About Sustainability

As a manufacturer and supplier of products made from natural resources, we are responsible for making sure those resources are protected and responsibly managed. Both your customers and our business demand nothing less. We do our part by actively pursuing the strictest sourcing and resource management practices.

A Legal, Sustainable and Abundant Resource

North American hardwoods are among the most plentiful and well-managed natural resources in the world. Hardwood forests naturally regenerate; no planting required. The preferred method of harvesting is single-tree selection. This provides a legal and sustainable supply, ensuring the overall health of the forests, water quality, and wildlife habitat. The volume of hardwood growing in the U.S. forests today is double that of 1950.

PEFC™ and FSC® Certification

We can supply PEFC and FSC certified lumber in almost every North American hardwood species.

- From the Western region: Alder and Pacific Coast Maple.
- From the Glacial region: Red Oak, Hard Maple, Soft Maple, Walnut, Ash, Cherry, Basswood, and more.
- From our Appalachian region: Red Oak, White Oak, Cherry, Yellow Poplar, Soft Maple, Ash, and many more.

NWH hardwood lumber meets the European Union Timber Regulation (EUTR).

Legally Sourced Imports

Our commitment to providing legally sourced hardwood extends beyond our North American products. Our imported products are legally sourced, and exceed Lacey Act requirements.

North American Hardwood

NWH manufactures 14 species of kiln-dried hardwood lumber with a range of standard and custom grades to meet any and all customer requirements. We supply distributors and OEMs with the most consistent, precision-graded hardwoods available. We operate 20 production facilities throughout the Western, Glacial and Appalachian regions, making us the largest provider of North American Hardwoods.

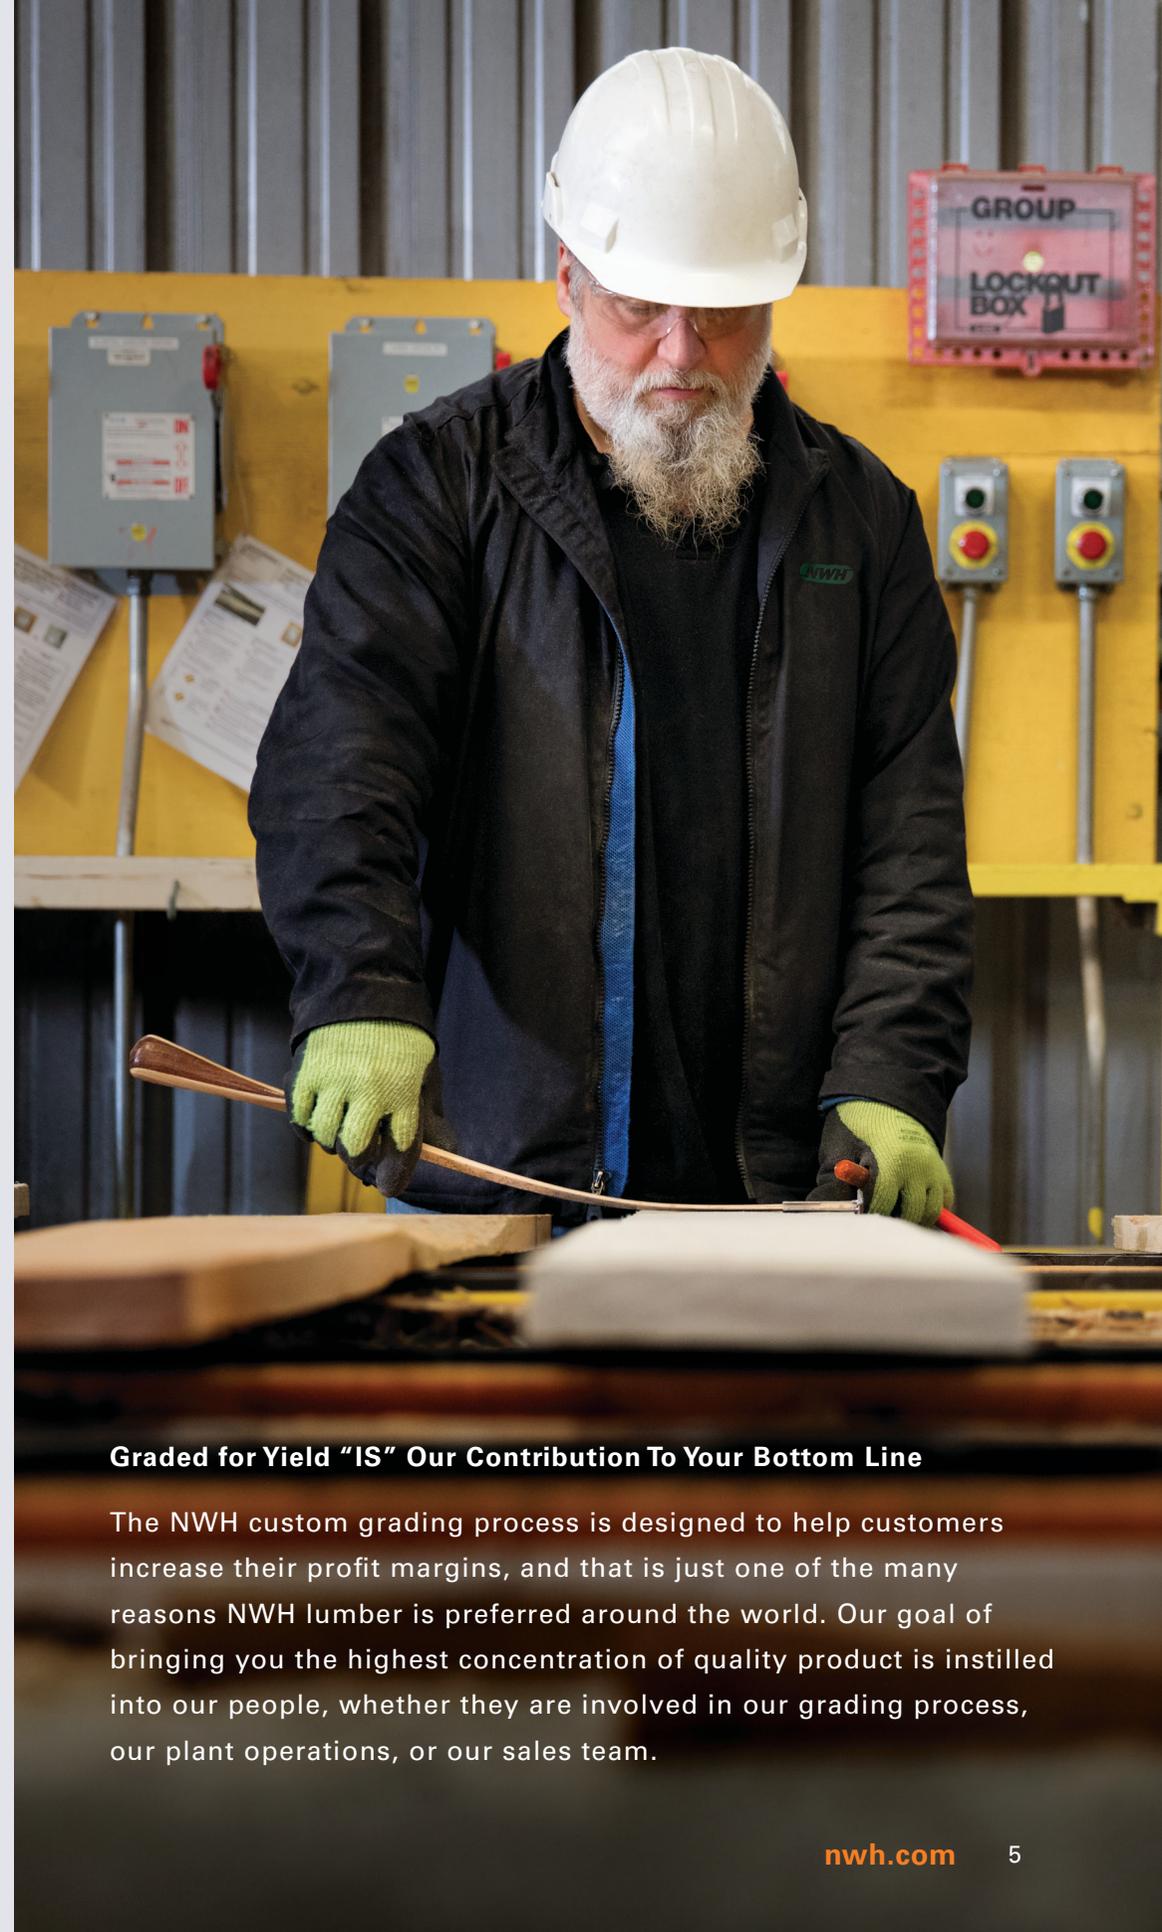

Imported Appearance & Industrial Panels

We source panels from around the world. Our plywood product lines offer a variety of species and an array of core options. Glue options include CARB 2 Compliant, ULEF, MR and WBP. Our imported products are legally sourced and exceed Lacey Act requirements.

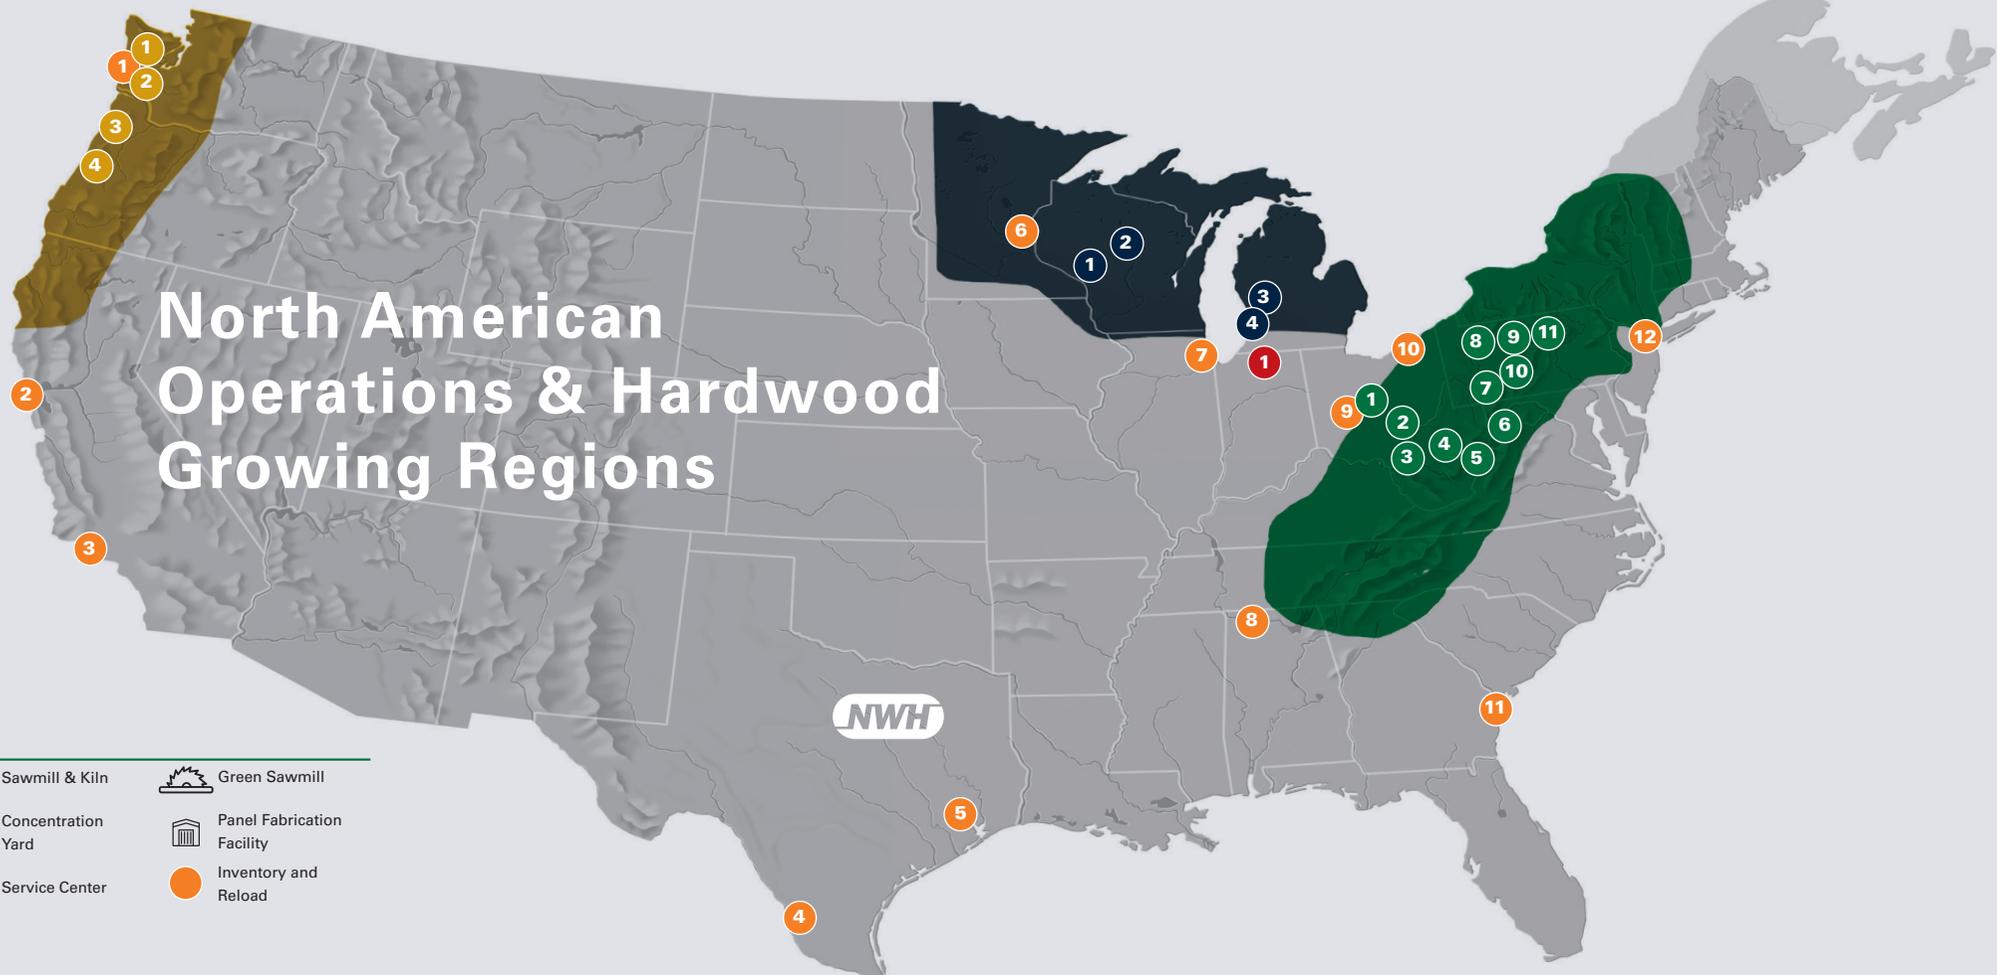

Tropical Hardwood Lumber & Decking

NWH stocks a variety of tropical hardwood lumber from Africa, Central and South America and Asia. All imported lumber goes through a rigorous 6-point inspection to ensure that all product meets our specifications. We only procure from vetted suppliers who meet all Lacey Act requirements for your peace of mind.

Graded for Yield "IS" Our Contribution To Your Bottom Line

The NWH custom grading process is designed to help customers increase their profit margins, and that is just one of the many reasons NWH lumber is preferred around the world. Our goal of bringing you the highest concentration of quality product is instilled into our people, whether they are involved in our grading process, our plant operations, or our sales team.

North American Operations & Hardwood Growing Regions

Key

-  Sawmill & Kiln
-  Green Sawmill
-  Concentration Yard
-  Panel Fabrication Facility
-  Service Center
-  Inventory and Reload

Inventory and Reload Locations

- 1 Longview, WA
- 2 Oakland, CA
- 3 Los Angeles, CA
- 4 Laredo, TX
- 5 Houston, TX
- 6 Minneapolis, MN
- 7 Chicago, IL
- 8 Tuscumbia, AL
- 9 Loudonville, OH
- 10 Ashtabula, OH
- 11 Savannah, GA
- 12 Newark, NJ

Western Region & Species

The predominate hardwood trees in this region are Alder and PC Maple, which generally grow at elevations under 1,000 feet. Western hardwoods may grow in pure stands, but generally grow along with conifers such as Douglas Fir, Sitka Spruce and Western Hemlock.

Alder, PC Maple

Panel Fabrication Facilities

- 1 Elkhart, IN 

Manufacturing Locations

- 1 Centralia, WA 
- 2 Longview, WA 
- 3 Garibaldi, OR 
- 4 Eugene, OR 

Glacial Region & Species

Some of the finest hardwood lumber comes from the Glacial region, where the climate is frigid and the growing season is short. These conditions produce tight-grained hardwoods with very consistent color.

Ash, Basswood, Cherry, Hard Maple, Hickory, Red Oak, Soft Maple, Walnut, White Oak

Manufacturing Locations

- 1 Onalaska, WI 
- 2 Dorchester, WI 
- 3 Grand Rapids, MI 
- 4 Hamilton, MI 

Appalachian Region & Species

This large region with its excellent growing conditions is well-suited for many hardwood species. It produces lumber with consistent texture, excellent width and long length.

Ash, Basswood, Beech, Birch, Cherry, Hard Maple, Soft Maple, Hickory, Poplar, Red Oak, Walnut, White Oak

Manufacturing Locations

- 1 Loudonville, OH 
- 2 Hamden, OH 
- 3 Dailey, WV 
- 4 Mill Creek, WV 
- 5 Hacker Valley, WV 
- 6 Buena Vista, VA 
- 7 Hopwood, PA 
- 8 Titusville, PA 
- 9 Endeavor, PA 
- 10 Marienville, PA 
- 11 Ridgway, PA 

The Power of Possibilities

From African Mahogany to Zebrawood

High-Quality Imported Products

When you choose NWH, you gain access to our well-developed global supply chain. This wide-reaching capability allows us to source a broad range of plywood panels quickly and affordably. We place strict quality requirements on our sourcing mills and we take an active role in the manufacturing process. We commit on-site quality assurance personnel to oversee capability testing, panel integrity and appearance. Our plywood products meet Lacey Act Regulations.

Your Tropical Hardwoods Journey Starts with NWH.

Explore our responsibly sourced hardwoods from Africa, Central and South America, and Asia, offering you materials that embody both quality and environmental responsibility.

Our Business is Making the Most of Yours

Success today depends upon having supply partners committed to meeting your hardwood needs and creating a competitive advantage.

The NWH sales team works closely with customers to understand their needs and deliver more of what they want and less of what they don't. Our process begins with a grading philosophy focused on quality and yield, to increase customer profit margins. Using state-of-the-art technologies and production processes managed by our technical experts, we maximize the yield of each log and minimize the number of defects. Simply, we ensure customers receive the highest percentage of on-grade lumber, delivering the greatest value.

Whether you're a manufacturer or a distributor, you can trust that our standards deliver consistently on-grade product with accurate tallies every time. If our name is on the lumber, you know you're getting the best.
