

MetalWorks Excalibur®
Product Information

MetalWorks Excalibur Steel Railing combines strength with a traditional and timeless style. Factory welded, fully assembled panels with hidden attachments and pre-attached brackets, allow for easy installation. Available in a traditional two rail design or in three decorative styles with textured matte black and hammered bronze finishes.

Features & Benefits

- Panels with square balusters are factory welded — no assembly required
- Pre-attached brackets on posts make level installation easy and ensure consistent bottom spacing
- Mix and match — perfect complement to Transform® composite railing
- Decorative infill styles offer custom looks
- Premium powder coating provides maximum durability
- 15 Year Limited Warranty
