Always inspiring.
Always up to date.

Time for *more.*

Launched in February 2024, the new EGGER Decorative Collection 24+ offers customers more decor and texture combinations, more in-stock product availability and more integrated digital services, providing more options and flexibility for our customers than ever before.

As your single source for decorative surfaces, EGGER is committed to delivering new and innovative high quality product solutions. Because all of our products are manufactured by us, our Decor Match System allows us to offer Thermally Fused Laminate (TFL), laminates and edge banding in a variety of colors, patterns and textures, all with a near flawless color match.

Combined with extensive trend research, an expansive array of digital services and our first ever rolling collection concept, EGGER's distributor partners, along with architects, designers and fabricators are guaranteed to always have access to products featuring the latest design trends and innovations to help inspire your projects.

EGGER Decor Match System

Matching TFL,
Laminates and Edge
Banding From a
Single Source

When designing your project, the last thing you want to do is spend time sourcing your materials from different suppliers. With EGGER's Decor Match System, you can get your Thermally Fused Laminate (TFL), laminate and edge banding all from a single source, without having to compromise on quality, color or texture.

With all of these products being manufactured by EGGER and in-stock as part of the EGGER Decorative Collection 24+, sourcing materials for your next project becomes more efficient than ever!

ST40 Feelwood Oakgrain

Authentically
Tactile and
Endlessly
Functional

Light Natural
Casella Oak
H1367 ST40

White
Casella Oak
H1384 ST40

Natural
Casella Oak
H1385 ST40

Brown
Casella Oak
H1386 ST40

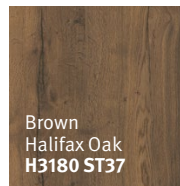

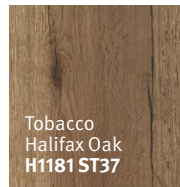

An embossed-in-register product new for the EGGER Decorative Collection 24+, ST40 Feelwood Oakgrain has an innovative synchronized pore surface that follows the trend of elegant, reserved and matte wood effects that replicate the style of a matte oiled veneer.

Available in four variations as part of the Casella Oak series of decors.

ST37 Feelwood Rift

Color,
Character
and Depth

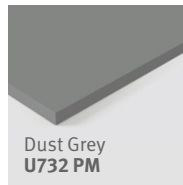

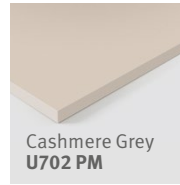

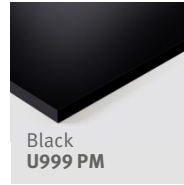

Another embossed-in-register texture, ST37 Feelwood Rift gives an incredibly realistic “wood character” look and feel, while outperforming wood and veneer in durability, processing and ongoing maintenance.

Available from the EGGER Decorative Collection 24+ in four distinct variations as part of the Halifax Oak series of decors.

PerfectSense® Premium Lacquered MDF Matt

Durable, Fingerprint
Resistant and
Velvety-Smooth

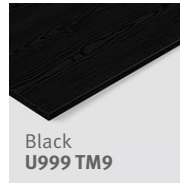

With an incredible super-matte look and feel, PerfectSense® Premium Lacquered MDF Matte products are borne from an innovative manufacturing process, ensuring they have a high end design aesthetic but are also long lasting and durable, providing fingerprint and micro-scratch resistance properties.

PerfectSense® Lacquered Particleboard

A Matte Surface
Solution Designed
to Offer Significant
Cost Savings

Premium White
W1000 TM9

Black
U999 TM9

Premium White
W1000 TM9

Black
U999 TM9

In line with the demand for matte surfaces, PerfectSense® Lacquered Particleboard products offer a high-end look and feel, but with a more cost effective particleboard core, resulting in significantly reduced costs without sacrificing durability or fingerprint and micro-scratch resistance.

New for the EGGER Decorative Collection 24+.

EGGER Investment in North America

State-of-the-Art Particleboard
Manufacturing Plant
Opened in 2020

Built in Lexington, NC, the particleboard manufacturing plant with lamination capacities, is EGGER's first manufacturing plant in North America. Development and construction of the three-phase project began in 2018 with production beginning in 2020.

Once completed, the project will involve an investment of approximately \$700 million, while creating an estimated 770 direct jobs.

The World of EGGER

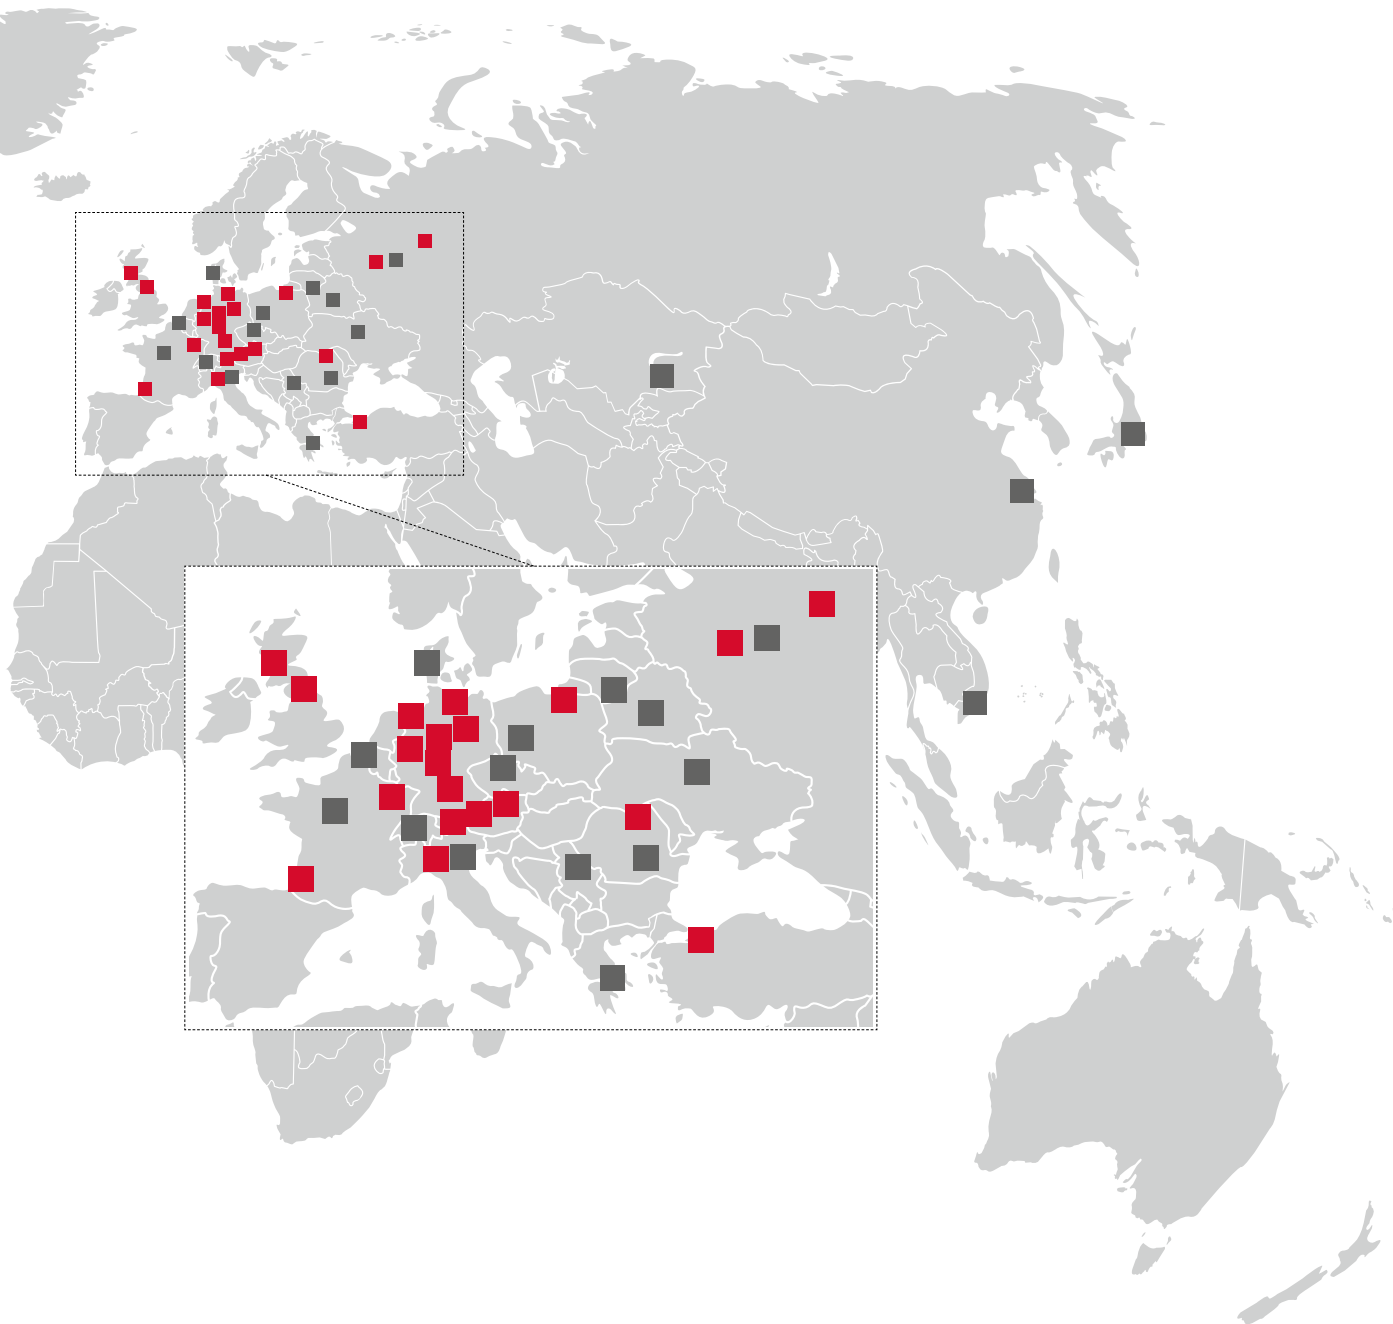

A Highly-Respected Family-Owned Business

The EGGER Group, headquartered in St. Johann in Tyrol, Austria is a leading international wood-based materials manufacturer.

Founded in 1961, we are a family-owned company currently with 22 production plants and approximately 11,000 employees worldwide.

In fiscal year 2023/2024, EGGER generated a group-wide turnover of EUR 4.13 billion while producing 10.4 million m³ of wood-based materials and timber.

Sustainable Materials for Your Green Design Goals

It's hard to find a more unique and valuable natural resource than wood.

Wood-based materials can create beautifully designed spaces, while storing carbon and being more environmentally friendly. At EGGER, we are committed to protecting this valuable natural resource.

Sustainability that is transparent.

to.egger.link/sustainability

Our EcoFacts illustrate how important sustainability is to us. They make the environmental performance of each individual product transparent and easy to understand.

Carbon footprint

Recyclability

Wood from the circular economy

Material from renewable resources

Wood from verified and certified sources

A healthy home that you can rely on.

to.egger.link/healthy-living

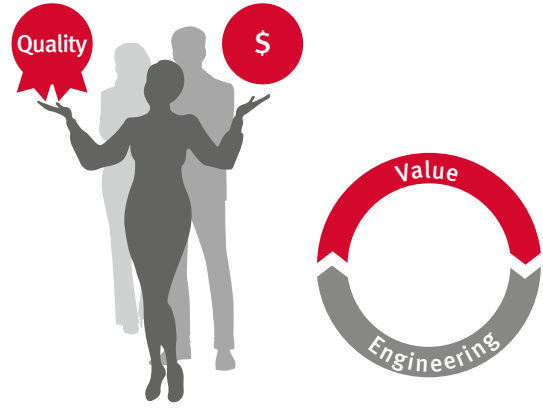

Indoor air quality is an important indicator of a healthy home. This is important to us, so we have our products regularly tested by independent institutes such as TÜV.

What is Value Engineering?

Value Engineering offers a methodical, organized way of analyzing project requirements, including design concepts and materials, to optimize costs and maximize value, while maintaining the required performance, quality, reliability and safety over the life of the project.

A Comparison: TFL vs. Laminates vs. Veneers

	TFL	Laminates	Wood Veneers
Deliver the look of natural wood	✓	✓	✓
Resistant to stains, scratches and fading	✓	✓	
Reproducible in color, pattern and texture years after installation	✓	✓	
Sealed, nonporous surface that is easy to clean	✓	✓	
Save time & money during fabrication as a finished panel	✓		
Resistant to buckling & bubbling from moisture exposure	✓		
Resistant to chipping & delamination	✓		
Material & fabrication costs	\$	\$\$	\$\$\$

Data provided by Nexis3, LLC (Rochester, NY) based on 11/2021 pricing information. Pricing represents estimated material and labor charges for 65 identical kitchens at 450 sq ft/ea.
