Strategically Structured Layers of UltraMatte Sophistication

Premier uses Senoplast's proprietary multi-layered acrylic material to engineer our UltraMatte panels, doors and drawer fronts with the utmost perfection.

- **Incredibly Smooth Matte Finish** – designed to absorb the majority of light reflection creating a soft appearance and touch.
- **Scratch-Resistant** – top hardcoat layer developed to be the most scratch-resistant acrylic in the market.
- **Color Richness** – several layers are UV stabilized to ensure original color depth without fading.
- **Bonding Layer** – ABS natural developed for the best bond to the core material eliminating delamination.
- **PureCore** – made with the finest MDF core material specified for a low surface variance.
- **Cleanroom Production Facilities** – every UltraMatte panel is processed in our cleanroom environment to mitigate surface impurities.

UltraMatte Panel Composition

Endless Interior Design Options

- **Colors and Edgebanding** – available in seven color options and matching laser edgebanding.
- **Panel Size Options** – standard panel size of 4' x 8' available in either 1/4" or 3/4" thickness. Additional thicknesses available upon request.
- **Finished Components** – double or single sided flat panel doors, 5-piece doors and 3-piece drawer fronts available.
- **Stock and Lead Time** – all materials are stocked on-site at our Denver headquarters for a 10-day lead time.

Additional Product Benefits

- **High Chemical and Stain Resistance** – no visible changes after extensive chemical testing.
- **No Orange Peel** – world-class PUR lamination technology prevents orange peel.
- **Anti-Fingerprint** – top hardcoat layer has anti-fingerprint properties.
- **Low-Maintenance Material** – easy to clean with wet microfiber cloth or nonabrasive products.
