

# STEP

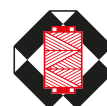

Fabric with a Lock-Stitch Optical Effect

## Looks Like Embroidered...

...but it's a structured fabric that looks remarkably identical to lock-stitch embroidery. Using STEP as base fabric for appliqués, logos and emblems, you'll save time-consuming filling of large, same color embroidery areas – while saving thread, time and production costs! STEP comes in a variety of popular colors. Make your life easy!

**GUNOLD®**

# STEP

## Processing Recommendations:

- ◆ STEP is ready to be embroidered, e.g. as patch or appliqué.
- ◆ STEP is finished with a strong, durable and fusible nonwoven on the back.

The new finish on the back of STEP results in a sturdy fabric with a lot more stability. This fabric is therefore ideal for embroidering patches and emblems.

- ◆ Best results can be achieved with laser cut appliqué patches made of STEP as the laser process welds together the cut edges and prevents the appliqué from fraying.

### Care Instructions:

## Technical Information:

- ◆ **Material composition:**  
100% polyester
- ◆ **Weight:**  
fabric: about 9.2 oz
- ◆ **Color range:**  
Available in 10 standard colors (see STEP shade card)
- ◆ **Make-up:**  
Rolls of 29.5 in x 10 yds
- ◆ **Sold by the roll or yard**

### Make your own comparisons!

The left photo shows an embroidery on STEP with 4.800 stitches, the right one shows the same embroidery completely filled with 18.000 stitches.

With STEP you're saving 13.200 stitches, a lot of embroidery time and thread.

Imagine the possibilities and time saved!

### Product Range – Effect Fabrics

#### PUFFY

Embroidery foam for three-dimensional effects.

#### TWILLY

Robust twill fabric with permanent nonwoven coating that can be cut, embroidered and ironed on as desired.

Professional materials for high-quality embroidery results – tried and tested in the clothing, promotion and home textile industries. For more information visit our website [www.gunold.com](http://www.gunold.com)!
