Product Information:

- This display is designed to be mounted under a custom made bench top of your choice (manufactured & fitted by others)*
- Requires a gantry above the unit to work as per the intended design (meeting Australian standards)
- Supports will be required to hold the cold well in position under the bench top
- The blown air design passes cold air over and under the food pans creating an even cooling effect (products in the pans must not restrict the cold air flow stream blowing across the top of the pans)
- Adjustable digital temperature controller allows food to be held between +2°C to +4°C in a maximum of 32°C ambient temperature
- Fully insulated and constructed from 304 grade stainless steel with a No.4 finish
- Supplied with a control box for connection to a remote condenser unit to be supplied & fitted by others and connected by a qualified refrigeration contractor and electrician
- Undermount refrigeration unit supplied with a condensate drain hose for connection to a tundish
- Suits gastronorm pans up to 100mm deep (sold separately).

End Elevation

* Attention to adequate ventilation allowances will be required if the service compartment is to be located in a joinery unit. Stoddart to review intended ventilation.

Note: Refrigeration load is calculated at the cabinet
