Healthcare applications*

STODDART SAFE ENSUITE

Stoddart are a market leader and have been specialising in the field of plumbing products for specialist applications, including security healthcare environments for nearly 60 years.

Designed for the toughest environments and manufactured using advanced technologies, Stoddart Safe Ensuite sanitaryware is robust yet designed to look domestic, making it ideal for therapeutic environments.

Stoddart offer a comprehensive range of high security sanitaryware which has been designed and developed specially for high secure applications.

The design and construction is unique and unrivalled in the sanitaryware market. The products have a gloss finish similar to porcelain, giving an attractive domestic look. This range has been designed to remove anti-ligature points where possible.

The techniques employed to construct the complete range of Stoddart sanitaryware, are used very successfully in the field of ballistic armour manufacturing, this results in unrivalled impact resistance.

As well as the high secure resin range, Stoddart offer complete washroom water controls, including; showerheads and spouts with the option of wave-on sensors or tactile operation. Stoddart washroom control system will control a complete ensuite (WC, Basin & Shower), however if required we can offer individual controls all fitted with lock-outs to eliminate the user to continue running water.

For further details about our full product range, please refer to our website at www.stoddart.com.au/plumbing or contact our sales team on 1300 79 1954

HIGH SECURITY WC PANS

WC PAN

The Stoddart high security range of WC pans have been designed and tested to be vandal-proof and avoid ligature points wherever possible.

The techniques employed to construct these pans are used very successfully in the field of ballistic armour manufacturing, this results in unrivalled impact resistance.

A high-grade non-porous polyester gel coat surface in all white comes as standard, and also available with coloured gel coat rim to assist partially sighted users. The gel coat has been specially formulated to resist chemicals and ultra-violet rays.

Models available

- Back to wall - standard
- Back to wall - disabled (60mm higher)
- Optional spacer box for use with Back to wall disabled pan
- Left and/or right infills for use with back to wall pans
- Wall hung

Optional colours available

Stoddart have 3 standard RAL colour options (see below), however, we can apply other RAL colours upon request- at an additional cost. Available on the standard back-to-wall and wall-hung pans.

Standard back-to-wall WC pan (height 420mm)

Wall hung WC pan

Optional blue seat

Disabled back-to-wall WC pan (height 480mm)

Disabled WC pan spacer box

WC PAN WITH SIDE INFILLS

FEATURES

- Glass Reinforced Plastic (GRP) impact resistant construction
- Polyester gel coat finish
- Anti-vandal
- Anti-shatter moulded resin
- High impact resistance
- Attractive domestic look
- Rear concealed waste outlet
- Large trap to avoid blockages
- Warm to the touch surface eliminates 'icy shock'
- Tested for anti-vandal, reduced ligature and fire resistant
- Secure wall mounted fixings supplied as standard - 250mm
- Light to lift, compared to standard ceramic sanitaryware
- Programmable, wave-on or tactile controls (available separately)

HIGH SECURITY INTEGRATED BASINS

HIGH SECURITY INTEGRATED BASIN RANGE

The Stoddart safe ensuite range has been designed for the toughest environments and manufactured using advanced technologies.

This range is robust, vandal resistant and avoids ligature points where possible.

Additional properties include high resistance to cyclical stresses and dual stage failure mode, providing excellent impact resistance and will not be subject to catastrophic failure. The surface is a high grade polyester gel coat.

The design is aesthetically pleasing and can be used in conjunction with our latest range of floor and wall mounted WC pans - providing the ideal safe ensuite package solution for use in many sectors.

FEATURES

- Polyester gel coat finish
- GRP impact resistant construction
- Concealed back outlet waste
- 316 Stainless Steel ligature resistant waste grid
- Integrated water outlet
- Moulded integral corner soap shelves
- Programmable, wave-on or tactile controls (available separately)

TOILETS - STAINLESS STEEL

STODDART TOILETS

Stoddart Toilet and Basin Combination units are ideal for high security prisons, detention centres and police stations. These units have fully welded seamless stainless steel construction for superior strength and hygiene. The toilet seat is hydraulically formed to create a comfortable contoured and self-draining profile. Electronic piezo buttons activate flush and bubbler.

FEATURES

- Concealed plumbing and fixings for vandal resistance with 2.0mm stainless steel shroud for superior strength and 3.0mm heavy-duty spec optional
- Toilet pan seat has an anti-contraband flushing rim for effective cell inspection with a profiled seat for user comfort/improved hygiene/safety
- Basin has an integrated soap holder and cell-safe security drain. Low profile and domed bubbler provides improved ligature resistant safety and controls water flow for hand washing and drinking to 2L/min
- Electronic piezo buttons and flow controller can easily be interfaced to water management control system. Electronic (single or dual) flush and electronic bubbler activation provides maximum serviceability (available separately)
- Optional toilet roll holder can be welded into the front face of the tower. Rear access option is preferred for high security prisons and detention centres

Stainless Steel is
100% recyclable

WASH BASINS - STAINLESS STEEL

STODDART WASH BASINS

The Round Security Wash Basin from Stoddart designed for high security prisons, detention centres and all public amenities where vandalism can be a costly problem. Fully welded stainless steel construction gives superior strength and hygiene. The radius front edge minimises risk of user injury. Basins are available with a manual button mounted in the front or side or electronic button mounted in the side or in the splash back.

FEATURES

- Concealed plumbing and fixings provide absolute vandal resistance
- Secure drain prevents unauthorised access
- 2.0mm stainless steel provides superior strength and hygiene
- Front edge is rounded with a smooth radius for user safety
- Water conserving security bubbler controls water flow for drinking and hand washing
- Low profile dome bubbler and wedge provides ligature resistant security
- The manual button options are positioned on either side of the unit
- The electronic button option has the button positioned in the side of the unit for easy access. By request, the button can be positioned on the horizontal deck at 3 o'clock position of bowl or located in the splashback together with other piezo buttons for WC flush or other functions as requested.
- The Electronic dispensing button can be interfaced with building water management control systems.
- Front access panel is standard. Rear access option is available for high security prisons. Access panels are fastened with security screw & can be fixed with stainless steel rivets after installation for added security.
- If unit is to be positioned beside a Stoddart Disabled Pan, the basin can be ordered with an optional toilet roll holder in the side of the basin unit.
- The shape of this basin satisfies the free space requirements of AS 1428.1 for design for access and mobility. For enhanced disabled user access, taps are replaced by a single easy touch piezo button that requires just 3-5N of force to activate.

Stainless Steel is
100% recyclable

PROJECT HIGHLIGHT

MAJOR PRISON PROJECT

Stoddart recently completed a new major Prison Project, a 1300 bed medium security facility for the Department of Justice and Corrections Victoria. Stoddart's range of Australian made stainless steel security fixtures, including toilet pans, hand basins, and combination suites were all specified, due to their seamless and radius edge design, anti-contraband flushing toilet rim, and superior strength.

The Stoddart range of security fixtures are fully welded from the highest quality stainless steel providing complete concealment of plumbing and fixings and can be specified to suit each and every project's requirement.

 **STODDART**[®]
PLUMBING PRODUCTS

COMPANY OVERVIEW

Stoddart was founded in 1959 by Tom Stoddart and his brother Albert in a small workshop in Coorparoo, Queensland, Australia. From these humble beginnings the business has grown to become a market leading foodservice equipment and plumbing fixture supplier employing over 500 staff throughout Australasia. The company continues today as a 100% Australian family owned business.

Stoddart's headquarters are located in Brisbane, where it has a state of the art manufacturing, distribution and warehouse facility utilising over 25,000m² of floor space. Stoddart also operate warehouses and sales offices in Sydney, Melbourne, Perth and Adelaide with a sister company based in Auckland, NZ. Through this strategically located infrastructure and together with its national, third party dealer and service network, Stoddart is able to provide solutions to businesses throughout Australia and the Asia Pacific region.

Stoddart currently manufacture, import and distribute a wide range of food service equipment and plumbing fixtures. The breadth of its product offering is unrivalled in the industry. Stoddart's brands are considered to be leaders in their respective markets and we pride ourselves on the ability to not only provide innovative premium quality products, but also back this with the appropriate pre and post sales technical advice and customer service. Stoddart have always been known to provide "Innovative Solutions".
