

Product Description:

The City Range of outdoor seating

The City Profile Bench is a robust and vandal resistant unit manufactured from marine grade aluminium with stainless steel fixings. The modular design allows up to 4 metres in continuous select grade hardwood 100% hardwood slats and up to 6 metres in clear anodised extruded aluminium slats.

Options include edge guards for deterring skateboarders as well as various mounting options.

Should you require special modifications to suit your specification, please do not hesitate to contact us.
