Super Erecta Pro™ Shelves

SUPER ERECTA PRO™

Durable and Cleanable. The original — reinnovated.

Super Erecta Pro is part of the Super Erecta family of storage products. Polymer shelf mats protect against abrasive containers and sharp edges. Removable shelf mat sections can easily be washed by hand or in a wash/dish machine. Proven Super Erecta construction with tapered steel shelf collars and both side and center supports is strong, sturdy, and built to last.

- **Prolonged durability:** Polymer shelf mats are corrosion proof and impact resistant. They will not chip, rust, or corrode.
- **Easy to clean:** Removable polymer shelf mats can easily be lifted off the shelf frames for cleaning in sinks or wash/dish machines.
- **Strong and robust:** Steel corners, side and center supports assure a sturdy and stable weight bearing surface.
Weight capacities for evenly distributed loads:
800 lbs. (363kg) per shelf for lengths of 24" to 48" (610 to 1220mm)
600 lbs. (275kg) per shelf for lengths of 54" (1370mm) or longer
2,000 lbs. (907kg) maximum per stationary unit.
- **Safe for delicate packaged items:** Smooth, flat surfaces protect packaged shelf contents from unwanted rips, tears, or damage.
- **Interchangeable:** Super Erecta Pro shelves are compatible on the same shelving units with other Super Erecta shelving options: Super Erecta wire, Super Adjustable Super Erecta, Solid Super Erecta shelves, Dunnage shelves, Cantilever shelves. Super Erecta Pro shelves can be used with Post-Type Wall Mounts, Direct Wall Mounts, SmartWall G3™ Wall Mounts, Security Units, Top Track, and quikTRAK systems.
- **Microban Product Protection:** Microban antimicrobial product protection is built into the shelf mats and the Metroseal 3 epoxy coating to protect the product from bacteria, mold, mildew, and fungus that cause odors and product degradation. Microban protection keeps the product "cleaner between cleanings".
- **Efficient use of storage space:** Shelves can be adjusted at 1" (25mm) increments along the post to maximize the use of available vertical storage space.
- **Open Grid Shelf Mats:** Open grid shelves promote air circulation and light penetration.
- **Fast, Easy Assembly:** Super Erecta Pro units assemble easily in minutes, without tools. SiteSelect™ posts have numbered grooves and feature unique double grooves every 8" (203mm) to help position the shelves.
- **Warranty:** Polymer shelf mats have a lifetime warranty against rust and corrosion. Metroseal 3 coated shelf frames and posts have a 12 year limited warranty against rust and corrosion.

Shelving unit shown is configured with:

- Super Erecta wire shelf (top)
- Super Adjustable Super Erecta (2nd from top)
- Super Erecta Pro (middle and 2nd from bottom)
- Super Erecta Dunnage Shelf (bottom)

Intermediate Bracket: Used to "add on" one or multiple Super Erecta Pro shelving units while eliminating the cost of two posts per unit. Can be used to join units end-to-end, back-to-back, at right angles, etc. Two Intermediate Brackets are required for each shelf. **Model No. Q9995Z**

Notes about "add-on" units.

- Add-on (Adjacent) units must be configured entirely of one style of shelf. (Example: Adjacent unit may be configured entirely of Super Erecta Pro OR entirely of Super Erecta Wire/Super Adjustable shelves.)
- To connect an adjacent Super Erecta or Super Adjustable Super Erecta wire shelving unit to a Super Erecta Pro unit using S-hooks, the adjacent unit must use S-hook model number Q9995Z.
- A mixed shelving unit having a combination of Super Erecta Pro, Super Erecta wire, and Super Adjustable cannot be connected to another unit with "S" Hooks.
