

Super Erecta Pro Mat Style Shelving

Durable & Cleanable. The Original - Re-innovated

Corrosion resistant shelving constructed of removable polymer open grid shelf mats over a wire shelf frame.

Prolonged durability: Polymer shelf mats are corrosion proof and impact resistant. They will not chip, rust, or corrode.

Easy to clean: Removable polymer shelf mats can easily be lifted off the shelf frames for cleaning in sinks or wash/dish machines.

Strong and robust: Shelf has a rigid four-sided frame with center truss(es). Robust corner provides complete 360° capture of the split sleeves and post for added stability.

Weight capacities for evenly distributed loads:

- Stationary units have maximum capacity of 2,000 lbs. (907kg) evenly distributed.
- Mobile units (with stem casters) offer a maximum total unit load of 900 lbs. (408kg).

Interchangeable: Super Erecta Pro shelves are compatible on the same shelving units with Super Erecta Metroseal 3 and Dunnage shelves. Super Erecta Pro shelves can be used with Post-Type Wall Mounts, Direct Wall Mounts, SmartWall Wall Mounts, Security Units and Top Track systems.

Microban Product Protection: Microban antimicrobial product protection is built into the shelf mats and the Metroseal 3 epoxy coating to protect the product from bacteria, mold, mildew, and fungus that cause odors and product degradation. Microban protection keeps the product “cleaner between cleanings”.

Efficient use of storage space: Shelves can be adjusted at 1” (25mm) increments along the post to maximize the use of available vertical storage space.

Open Grid Shelf Mats: Open grid shelves promote air circulation and light penetration.

Fast, Easy Assembly: Super Erecta Pro units assemble easily in minutes, without tools. SiteSelect posts have numbered grooves and feature unique double grooves every 8” (203mm) to help position the shelves.

Warranty against rust and corrosion: Shelves with polymer shelf mats – 15 years. Posts – 12 years. Shelf mats are constructed of polypropylene and will never rust.

Super Erecta Pro Mat Style Shelving

Specifications

- **Shelf frames:** Carbon steel with Metroseal 3 epoxy coating
- **Polymer Shelf mats:** Polypropylene
- **Microban antimicrobial product protection** is built into the polymer shelf mats and Metroseal 3 epoxy coating
- **NSF listed for all environments**
- **Continuous Temperature:** Super Erecta Pro Shelves can be used continuously within a range of -29/49°C with intermittent exposure to 93° C

NOTE: Not suitable for cart wash applications

Actual Dimensions: Width: Add 1/4" (6mm) to nominal size
Length: Subtract 1/4" (6mm) from nominal size

NOTE: Polymer Shelf mats are designed to fit Super Erecta Pro shelves and cannot be retrofitted to Super Erecta wire shelves.

Replacement Split Sleeves
Model No. 9985 - Bag of four sets

Standard Shelves

- Part number includes shelf with removable polymer shelf mats and one bag of split sleeves

SiteSelect Posts

Stationary post height includes leveling bolt

NOTE: Special length posts are available upon request . Consult your Metro representative.

Stationary

Height (mm)	Weight (kg)	Super Erecta Pro - Model No.
1895	1.8	74PK3
2200	2.3	86PK3

Mobile (For use with stem castors)

Height (mm)	Weight (kg)	Super Erecta Pro - Model No.
1570	1.6	63UPK3
1772	1.7	70UPK3
1876	1.8	74UPK3
2181	2.3	86UPK3

"S" Hook: Used to "add on" one or multiple Super Erecta Pro shelving units while eliminating the cost of two posts per unit. Can be used to join units end-to-end, back-to-back, at right angles, etc. Two "S" hooks are required for each shelf. **Model No. Q9995Z**

Notes about "add-on" units:

- Add-on (Adjacent) units must be configured entirely of one style of shelf. (Example: Adjacent unit may be configured entirely of Super Erecta Pro)
- A mixed shelving unit having a combination of Super Erecta Pro, Super Erecta wire, and Super Adjustable *cannot* be connected to another unit with "S" Hooks.
