Front-End Software Engineer with Full-Stack experience. Passionate about creating sustainable, scalable web applications. Specializing in React.js, Redux.js, and Node.js. Former successful Sales Executive / Entrepreneur.

Experience

Software Engineer – GoodCode, Co – April 2017 – Present

- Assisted in the transition from **Angular 1.5** to **React 16** with **Redux**.
- Designed and implemented **Google Fit** and **FitBit API** data integration services in **Node/Express** with **MongoDB**. Utilized custom cache validation strategy to minimize database storage.
- Led the migration from **MongoDB** to **PostgreSQL**.

Senior Sales Executive – NASDAQ OMX – Jan 2016 – Sept 2016

- Managed the full sales cycle of the Public Relations Suite to Northern California clients, resulting in **113%** of quota attained.

Co-Founder and CEO – OhShii, Inc – Apr 2013 – Dec 2015

- Created the **product design** and managed the product development lifecycle.
- Formulated the go-to-market strategy by conducting local market research in key markets.
- Raised six-figures for the “**AirBnB of Parking Spaces**” and launched on **iOS, Android, and web**.
- OhShii, Inc was **successfully acquired** at the end of 2015.

Skills

- Languages:** JavaScript (ES6), Ruby, HTML5, CSS3, Sass
- Libraries:** React.js, Redux.js, jQuery, Express, Angular, Bootstrap
- Frameworks:** Node.js, Ruby on Rails
- Databases:** SQL, PostgreSQL, MongoDB, Mongoose
- Utility:** Webpack, Gulp, Git, Bash, Balsamiq
- Testing:** Mocha, Chai, RSpec, Selenium-Webdriver, Agile, TDD

Projects

Weatherly - https://github.com/puan0601/weatherly_react

React.js, Redux.js, Node.js

- Real-time 5-day weather forecasting web application built on Node.js with React.js and Redux.js.
- Incorporated **Sparklines** for interactive charting and **Google Maps** for location mapping.

GoFlyZone - <https://goflyzone.herokuapp.com/>

MEAN, Bootstrap, Webpack

- Drone-pilot enthusiast community built with **MEAN** stack using **Webpack** for Angular 1.5.
- Integrated customized **Google Maps** interactive map and data filters.

Generally Assembled - <http://assembled.herokuapp.com/>

Ruby on Rails 5, Bootstrap

- GitHub smart-search web application built with Ruby on Rails 5, PostgreSQL, and Bootstrap.
- Increased **relevancy** of search results **15%+** by incorporating **ElasticSearch** into search request.
- Implemented daily **data caching** strategy with **data validation** using custom header data.

Education

General Assembly – San Francisco, CA – 2017

Full-Stack Web Development Immersive Course

- Developed **MEAN, MERN, and Ruby on Rails** applications in an immersive program using agile methodologies, RESTful API design, test-driven development, and cross-team collaboration.
- Completed Harvard's **CS50X: Introduction to Computer Science**.

B.S. – Entrepreneurship – Saint Cloud State University – 2010

- Graduated Magna Cum Laude
