## Intro

---

**In a nutshell:** I'm am a **Full-stack React (Mongo, Express, React, Node)** developer specializing in **React, Redux, Sass,** and **Vanilla JS**.

**Previously:** I was Lead Front-End Developer at EverSport Media, responsible for the consumer-facing and administration themes of eversport.tv as well as their Single Page App. Before EverSport, I was Senior Web Developer at Flickrbox in San Francisco, creating enterprise-level websites.

**Most Recently:** I've been working on BottomlessBrunch.com, a React and Redux based web app.

## Experience

---

### Bottomless Brunch in San Jose, CA

April, 2017 - Current

**Full-Stack React Developer:** Developed a React and Redux powered responsive web-app to graphically render "bottomless" brunch locations in the United States. Integrated Google Maps, Google Places, and YELP APIs. Created administration back-end which combines multiple APIs to create new locations in seconds. Served on an AWS Server through an NGINX proxy with a Node/Express API.

### EverSport Media Online Video Provider in Los Gatos, CA

Sep, 2015 - Jan, 2017

**Lead Front-end Developer:** Lead Front-end Developer for Eversport's themes and modules using JavaScript, SCSS / CSS, Drupal and PHP. Designed and developed the site and the user-interface for the Single Page App media player that ran on 3rd party sites.

- **EverSport.tv** (2015-2017)  
*Lead Front-End Developer, Co-Designer, Drupal CMS, JavaScript, Sass, PHP*
- **Single Page App** (2015-2017)  
*Lead Front-End Developer, Co-Designer, JavaScript, JSON, AJAX, Sass*

### Flickerbox, Inc. Agency in San Francisco, CA

Jan, 2012 - June, 2015

**Senior Web Developer** (Jan, 2014 - June, 2015): Orchestrated the weekly developer meetings; drafted timelines and estimates for future projects; composed technical briefs for client-side contracts; lead web development projects.

**Web Developer** (Jan, 2012 - Jan, 2014): Architected content structure for websites. Hand-coded HTML, SCSS (CSS), and JS from designs into responsive and interactive pages. Implemented JavaScript libraries and wrote custom JavaScript/jQuery code.

- **PureStorage.com** (2015)  
*Lead Developer, JavaScript, Sass, WordPress*
