

Grace Durham

Software Engineer

gracelee.durham@gmail.com | [linkedin.com/in/grace-durham/](https://www.linkedin.com/in/grace-durham/) | 816-830-2572

SKILLS

I know Python pretty well. I've done self study or been briefly exposed to the following:

JavaScript (AJAX, JSON), HTML, CSS, SQL, Flask, jQuery, Bootstrap, Jinja, PostgreSQL, Git, GitHub, Command Line, Swift 3, Xcode 8, Rails, Ruby

PROJECTS

Shoes Spotting

A site where people can post and comment on photos of shoes

Tech stack: PostgreSQL, Python, JavaScript (AJAX, JSON), HTML, CSS, SQL, Flask, jQuery, Bootstrap, Jinja, [Github link://github.com/GraceDurham/Shoe-Spotting](https://github.com/GraceDurham/Shoe-Spotting)

RECENT EXPERIENCE

Software Engineering Intern

July 2017 – Present

Hireclub

- Performed QA testing
- Participated in sprint planning meetings
- Fixed bugs (submitted pull requests) with the help of mentors

Personal Lines Underwriter II 2016

May 2013 – Nov

CSE Insurance Group

- Analyzed all personal lines of business to determine acceptability and to control, restrict, or decline, according to company guidelines.
- Gather and analyze account information (loss information, driver information, financials, loss control reports, etc.) and develop underwriting recommendations and pricing strategy.
- Review risk reports from claims department to possibly cancel or non-renew policies that no longer meet company guidelines.

Account Executive

Mar 2011 – Oct 2011

Yelp.com

- Initiated self generated leads by conducting high volume outbound sales calls to local business owners each day (80+).
- Completed the full sales cycle from introductory calls to closing deals.
- Prepared quotes, advertising demos, and bids for clients.

**I've held various roles in the insurance industry since 2005
