TECHNICAL SKILLS

STRONG // JavaScript, jQuery, AngularJS, React & React Native, Node & Express, MongoDB & Mongoose

EXPERIENCED // HTML & CSS, Socket.io, MySQL & Sequelize, Mocha & Chai, Git, Gulp, Mithril, Python

SOFTWARE ENGINEERING PROJECTS

SAVVY SHOPPER // React Native Developer

savvyshopper.herokuapp.com

Links shoppers with product experts for real-time chat advice

- ⦿ Enabled users to search for and live-chat with product experts using Socket.io technology
- ⦿ Formed responsive mobile interface allowing users to swipe between views for easy navigation
- ⦿ Personalized user experience by dynamically rendering different views based on account status
- ⦿ Allowed users to save expert recommendations to wishlists to review and purchase items later

SANDPIPER ANALYTICS // Full Stack Engineer

sandpiperanalytics.herokuapp.com

Track link clicks and page views on registered sites to analyze performance over time

- ⦿ Generated custom CDN allowing users to effortlessly inject tracking script into sites
- ⦿ Organized MongoDB schemas with practical relationships for convenient access to data
- ⦿ Incorporated authentication using JSON web tokens to keep user data secure

METIS PLANNER // Full Stack Engineer

metis-planner.herokuapp.com

Autonomously schedules to-do list items based on appointment times and task deadlines

- ⦿ Integrated Google's Identity Platform to provide read and write access to user calendars
- ⦿ Created personalized user experience using time zone detection and custom Angular directives
- ⦿ Designed clean and responsive scheduling interface for quickly registering multiple tasks

BRACKET BUILDER // Full Stack Engineer

bracket-builder.herokuapp.com

Create tournament brackets, update results and save in-progress or completed events

- ⦿ Built RESTful API using Node and Express for creation and retrieval of custom brackets
- ⦿ Established intuitive user interface for updating tournament results using AngularJS

HANGMAN // JavaScript Developer

hangman-js.herokuapp.com

Play a classic game of Hangman without the hassle of drawing it out

- ⦿ Offered multiple gameplay options allowing users to play with a friend or against the computer
- ⦿ Appended body parts and letters to the DOM based on correct or incorrect guesses using jQuery

PROFESSIONAL EXPERIENCE

AMERICAN SPORTS NETWORK // Video Editor

2014 - 2016

- ⦿ Created promotional content and highlight reels to attract new viewers
- ⦿ Ensured completion of projects on tight deadlines by managing time efficiently

EDUCATION

HACK REACTOR // Advanced Software Engineering Immersive Program

2017

NORTHWEST MISSOURI STATE UNIVERSITY // B.S. in Broadcasting, Interactive Digital Media

2008 - 2011

PERSONAL

Stand-up comedy aficionado, casual sports fan, foodie-in-training
