WORK EXPERIENCE

Associate Research Scientist BioSolum BV

03/2018 – 01/2019

Weert, The Netherlands

BioSolum BV is a Contract Research Organization (CRO) that is active in the field of industrial microbiology and biotechnology

Achievements/Tasks

- Identified, examined and characterized a newly patented micro-organism (MicRIN) for environmental sustainability
- Planned, lead and conducted research for investment of 50,000 euros to scale up product production
- Used a wide range of modern techniques in fermentation, microbiology and biotechnology
- Experienced with processes regarding GLP or GMP conditions for product analysis and purification
- Practiced down-stream process development (DSP) techniques for isolation of biomolecules

Food Scientist / Product Developer Fi&S

01/2016 – 06/2016

Maastricht, The Netherlands

Fi&S provides the food processing industry with food technological functionality by developing, producing and selling custom made blends and solving customers' problems

Achievements/Tasks

- Developed/formulated and generated new product ideas including powdered beverages
- Developed and commercialized from lab prototypes to product trials
- Performed central location tests and sensory evaluations for product development
- Created and evaluated a product that contains functional ingredients that benefit patients with the metabolic syndrome

Operations Manager Gotcha! Weert

06/2011 – 03/2018

Weert, The Netherlands

Gotcha! is famous for the high quality of its restaurant, the nice and comfortable atmosphere in its bar and the popular movies in its cinema

Achievements/Tasks

- Maintained effective accounts receivable and cash flow monitoring system
- Effectively controlled costs and developed operating budgets (ex. food and beverage orders)
- Monitored and directed staff for team management
