Languages:	JavaScript, HTML, CSS, Java, Ruby
Programming Tools:	React, Node, MongoDB, Meteor, Git, jQuery, Bootstrap
Other:	WordPress, SquareSpace, Shopify, Heroku, Microsoft Word, Excel, Powerpoint

Projects - Javascript/HTML/CSS:

SkillsSwap App: Enabled college students to acquire new skills with their own talents and create productive relationships.
Programmed with a colleague for 20 hours/week for 4 months and gained tremendous experience working with artists, writers, marketers and other entrepreneurs.

Personal Website: Designed and developed a personal website portfolio from scratch: KJScript.com
Used GitHub Pages for free hosting and easy updating. Gained experience creating responsive design without outside libraries.

Experience & Activities:

Tech Consulting

Self-Employed

New Hope, PA

June 2017 - Present

- Enhanced client websites by reducing load-blocking resources, compressing images, minifying files, adding fluid designs and features, etc.
- Worked with a thriving startup to complete pressing deadlines
- Utilized online resources to learn Shopify development with a tight 3 day timeline to meet clients needs

Temple University (IFSCM)

Instructor/Facilitator

Philadelphia, PA

September 2014 - January 2016

- Life-mentor to inner-city kids. Met with 15+ students on Saturday mornings in an attempt to reduce the alarming rates of high school dropouts in Philadelphia
 - Discussed aspects of the community that hinder students from succeeding in education
 - Responsible for creating activities that motivate students to excel in their studies
-

Experience & Activities:

FreeCodeCamp

Front End Web Development

San Francisco, CA

Certified: April 2018
