## Languages

Russian

English

## Skills

Problem Solving

Project Management

Software Engineering

PHP

JavaScript

Ruby on Rails

C/C++

Java

Software developer with entrepreneurial background. In my daily work always try to consider how what I do affects business and try do what is most beneficial for it. Because of that don't have preferences in technologies used, rather prefer to focus on solving problems at hand in most efficient way.

## Experience

2016 –  
2017

### Co-founder, CTO

*Fragmentic/Attitude.ai (attitude.ai)*

- Ruby on Rails and JavaScript heavy frontend
