

KRISHNA ATI

Summary

A seasoned techno-management professional with over 18 years of experience in large IT/ analytics program delivery, product leadership and people management.

Deep domain knowledge in Supply Chain Management and Retail with exposure to select projects in Healthcare, BFSI, Media and Human Capital Management with in-country experience in USA, UK and India.

Completed MBA in Product Management, to significantly augment my skills beyond delivery management - while engaging with a startup in Supply Chain.

Conceptualized, developed and soft launched a product offering (XOWeekends) for leisure/ adventure travel segment leveraging Design Thinking.

My ideal next assignment - Business leadership responsibility in driving customer-oriented solutions at the intersection of Data Analytics, Product Management and emerging AI capabilities.
