Phone Number: 510-701-2921   |   Portfolio: https://mawais54013.github.io/MAwais/

## SUMMARY

Full Stack Web Developer with a background in Finance and a life-long dedication to learning new technologies. Excels at collaborating in a cross-functional environment while solving complex technical problems to build scalable solutions that solve users' needs. Experienced at working on projects at all stages from mockup to deployment. Determined on creating friendly user-based applications through creativity and ingenuity.

## EXPERIENCE

**Freelance Web Developer**

**Self-Employed**                              **Alameda, CA**                              **May 2018 – Present**

- Design, build, and maintain web sites, using authoring and scripting languages, content creation tools, management tools, and digital media.
- Built a scalable dashboard using JS, Node, React, and MongoDB that manages a user's job search process with reminders, new job postings, and updates on tech news and meetups.
- Collaborated with designers and other engineers to turn wireframes and mockups into responsive applications for users while continuously maintaining understanding of current and new technologies through education, workshops, and participation in professional conferences.
- Created an online collaborative code editor with React, JavaScript, Node, Firebase, and Heroku for user's to practice their coding skills, create applications, or test each other while using various chat features such as video chat or built in chat engine.

## TECHNOLOGIES

## RECENT PROJECTS

**Code-Chat**

**github.com/mawais54013/Chat-It**

- Online collaborative code editor with webrtc video and online chat feature.
- **Live Demo:** https://github.com/mawais54013/Chat-It
- **Stack:** React, Javascript/JQuery, Node, Firebase, Material-UI, React Boostrap, Heroku, NPM

**Dashboard**

**github.com/mawais54013/Dashboard**

- Creates updates for job searchers by displaying reminders, jobs, and recent news.
- **Live Demo:** https://dashboardv1.herokuapp.com
- **Stack:** React, MongoDB, Node, Heroku, Yarn/NPM, JavaScript/JQuery

**GameWatch**

**github.com/mawais54013/PubNub-Project**

- Users can view Twitch Live Streams while chatting with others through pubnub chat engine
- **Live Demo:** https://mawais54013.github.io/PubNub-Project/
- **Stack:** JavaScript, JQuery, HTML, CSS, PubNub, NPM, Bootstrap, and Handlebars.js

**Face-Recognition**

**github.com/mawais54013/Face-Recognition**

- Face recognition application that detects faces in images using Clarifai API.
- **Live Demo:** https://face-recog01.herokuapp.com
- **Stack:** JavaScript, React, Tachyons, PostgreSQL, Heroku, Express.js, Bcrypt, and Jquery

## EDUCATION

**University of California – Berkeley,**
**San Francisco, CA. July 2018 – October 2018**
Technical Program Certification, Full Stack Web Development

**San Francisco State University**
**San Francisco, CA. August 2013 – August 2017**
Bachelor of Business Administration, Finance
