

Data Center

CHARLOTTE - CENTER PARK

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility, one of seven in the state of North Carolina, is part of a nationwide network of data centers that share our commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy best practices to serve client needs.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- 40,600 sq. ft. data center/office building
- 10,900 sq. ft. gross raised floor space
- Operating in Charlotte since 2003
- Dark fiber ring between Charlotte facilities
- 6 (six) On-net carriers
- 100% uptime SLA
- Charlotte airport power grid (region's #2 priority grid)
- Flexible cloud configurations (private, multitenant and hybrid) includes products from EMC, NetApp, HPE, Cisco and F5
- Customer work spaces and DR seating available

The Charlotte - Center Park data center is a safe, secure facility audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually and is ITAR and EU-US Privacy Shield registered.

*PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
