EQUINIX DUBLIN DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Dublin data centers are business hubs for 210+ companies. Dublin customers can choose from a broad range of network services and can also interconnect directly to customers and partners in their digital supply chain. The Equinix Dublin metro International Business Exchange™ (IBX®) data centers consist of four buildings with approximately 145,000 square feet (13,525+ square meters) of colocation space.

The Dublin colocation facilities enable customers to be part of a highly connected digital ecosystem, including INEX, the Irish Internet exchange. Our strategic location in Dublin gives our data centers a high level of carrier connectivity, making them ideal locations to procure bandwidth and optimize network performance. Hundreds of technology companies have moved to set up a base in Dublin over the last two decades, attracted by its business-friendly environment. This has enabled the city to become a leading player in the global technology sector. The four sites in Dublin have become the gateway to the United States as U.S.-based content companies must host EU customer data within Europe.

DUBLIN IBX® BENEFITS

- INEX, Ireland's Internet Neutral exchange, allows networks to interconnect directly at no cost
- Ireland has a 12.5% headline corporation tax rate; the lowest in the EU and the lowest tax rate in any English-speaking country
- Access to U.S. markets, as its popularity rises by offering more abundant power, less expensive real estate and a climate well-suited for free cooling
- Seven of the global top 10 technology firms and 9 of the global top 10 software firms have major operational bases in Ireland

IBX TECHNICAL SPECIFICATIONS

 Building**Space**

Colocation Space	21,132 ft ² (1,963 m ²)
Building Type	2 floors, prefabricated metal sandwich panel and steel frame
Parking	Adjacent to building (no charge)

Floor

Floor Type	Raised
Floor Load Capacity	204 psf (9.8 kN/m ²)

Seismic Design Category	Low
--------------------------------	-----

Fire Suppression	VESDA, inergen inert gas fire suppression, HSSD (high sensitivity smoke detection), visual and audio fire alarms, double knock activation
-------------------------	---

 Facilities**Power and Cooling**

Power and Cooling Density	2 - 9 kW per cabinet
Utility Feeders	1 x 3.4 MVA
UPS Configuration	Parallel redundant
UPS Redundancy	N+1
Standby Power Configuration	3 x 2MVA generators
Standby Power Redundancy	N+1
Cooling Configuration	Chilled water and free-cooling (air cooled chillers)
Cooling Redundancy	N+1

Security

Physical	Man trap entry, biometric with hand geometry and PIN code
Human	Onsite security officers 8 a.m. to 5 p.m.
Electronic	Card readers, biometric readers, CCTV surveillance with 90-day video retention, motion detection

 Amenities

- Breakroom
- Showers
- Crash carts
- Work kiosks
- Wifi
- Conference room

 Products and Services**Colocation**

- Private cage
- Secure cabinet
- AC power circuits
- Antenna

Interconnection

- Equinix Connect
- Cross connects

Services

- Smart Hands™
- Migration planning
- Equipment sourcing
- Installation
- Managed services

 Reliability

Our IBX data centers boast an industry-leading, high average uptime track record of >99.9999% globally.

 Certification and Sustainability**Certifications**

- ISO 14001:2004
- ISO 22301
- ISO 27001
- ISO 50001
- ISO 9001:2008
- OHSAS 18001
- PCI DSS

Green By Design

- Renewable energy—100% bundled GoOs from wind

ABOUT EQUINIX

Equinix, Inc. (Nasdaq: EQIX) connects the world's leading businesses to their customers, employees and partners inside the most-interconnected data centers. In 52 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies.
