## USER GUIDE

## SWITCHING ON/OFF

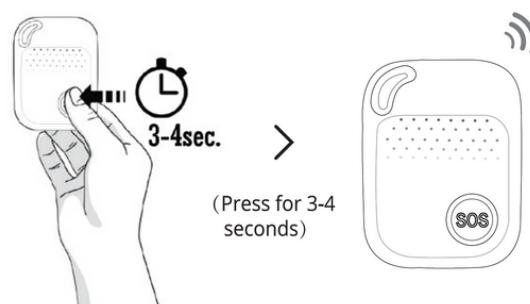

**To turn ON the device:** press the CALL button for 1 second, all the LEDs will flash rapidly.  
The device can also be turned on automatically by charging via magnetic USB cable or put it into the docking station.

**To turn OFF the device:** press and hold the side button and SOS button together for 3 seconds until the LEDs turn off.

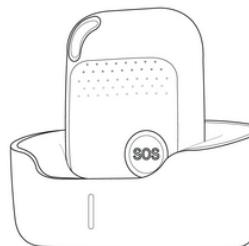

## ACTIVATING SOS ALARM

When you need help, press the SOS button for 3-4 seconds until you feel a vibration and hear a voice prompt of activating an SOS alarm. This sends a call for help to our Monitoring Centre.

An operator will speak to you via two-way voice communication and confirm your location. You can speak to the operator through the device microphone.

## CHARGING YOUR DEVICE

- Place the device on the charging base
- Connect the USB cable from the charging base to the AC adaptor

The charging base light will glow when charging and turn solid when fully charged.

**TIP** For first time use, please fully charge the battery for around 2-3 hours.
