

Programming an additional pendant

1. Press the yellow **CANCEL** button firmly 3 times. The alarm will sound an announcement asking you to, 'Please press your pendant'.
2. Press the new pendant button. The base unit will respond with a recorded message, 'One pendant learnt, zone 2'. If there is no response from the base unit after pressing the pendant, please try again and press firmly on the pendant button.
3. Once you have received a response from the new device/s press the **CANCEL** button firmly once.

If you require further assistance, please contact our office on 1300 731 716.

NOTE: You must test all pendants once an additional pendant or accessory has been programmed into the base unit to ensure it has been learnt correctly.

Test Pendant

1. Press the blue **TEST PENDANT** button. The unit will respond with a voice message saying, 'Please press your pendant'.
2. Press the pendant button. The unit should respond with 'Your pendant test is sending'.
3. Wait for a response. A voice message should respond with 'Thank you, your pendant test was successful'.
4. Press the yellow CANCEL button once to take the device out of test mode.
5. *Repeat the process for each pendant in the property.*

If any device does not register with the test pendant, try to re-programming into the device following the 'programming an additional pendant' guide. If you are still having difficulties, call our office on 1300 731 716 and one of our staff will be happy to assist you.
