## Joe's Journal

Hey there, friends!

As we get closer and closer to summer, I've been thinking a lot about what fun stuff I'm going to get to do. When school is out, that's when I really have the chance to let my imagination run wild. Less homework, more fun!

I have REALLY been into the future lately. Imagining the future naturally leads me to think about reasons to save. If you're looking for your own motivation to save for the future, I've created a great music video just for that. Hope you like it!

**JOE**

## THE FUTURE is a PUZZLE (a FUN ONE!)

GO ONLINE!

To keep Joe's galactic adventures going, we've created some new future-focused jigsaw puzzles just for you. Put the pieces together to form pictures that are out of this world. With easy and hard levels, there's something spacey for everyone!

## Where In Time are they headed to next?

Frugal McCougal has decided the Money Mammals need to head to the past again... only not quite as far back as the time of the dinosaurs. They'll be exploring the 16th century -- the golden age of the Renaissance! Stay tuned for science, art and so much more!

We'll **Share \$ Save \$ Spend Smart** Too!

# MAKE A BOT

If there's one thing Piggs doesn't enjoy, it's doing chores! So now that he's in the future, he's decided to build a robot to do his chores for him. Genius, right? Help him connect the parts correctly by solving the equations and drawing lines between similar answers. You can also cut out the parts.

# SPACE ROCKS

Marmoset is excited to take her first space trip with her big bro, Joe. The only problem is that they've run into an asteroid belt! Navigate the puzzle to help them get to their destination safely.

# MARTIAN MIX-UP

Joe is spending some much-needed vacation time in a Martian colony, but he's misplaced his Marsbucks. Help him recover all these clear plastic coins so he can get a snack at his favorite Martian fast food joint.

If one Marsbuck equals 50 cents in Earth dollars, how much does Joe have to spend? \$
