

Adjustable Height Workstation

A sturdy adjustable height work surface that can follow you anywhere.

Tools Required

Phillips-head screwdriver

Hex key (provided)

Wrench (provided)

Note: Follow these steps to assemble the SmartMoves Adjustable Height Workstation.

- 1 Place the Top face side down on a soft clean surface. Align the Release Lever and the Post with pre-drilled holes. Attach to Top using Wood Screws (Fig. 1).
- 2 Align the Cable Clamp with pre-drilled hole and attach to Top using Screw (Fig. 2).
- 3 Position the Base with the wider and longer pair of legs as shown. Secure the Base to the Post using the Base Plate, Machine Screw with Washer, and Hex Key (Fig. 3).
- 4 Attach the Locking Casters and Non-Locking Casters using Wrench as shown (Fig. 4).
- 5 Gently place Adjustable Height Workstation upright.
