Accommodate[®]

Seating

Bringing People and Spaces Together

Ready for Everyday Demands

Accommodate is a cohesive seating collection built for today's dynamic spaces. From waiting areas and cafés to collaboration zones and private offices, it delivers the comfort and durability that define HON.

With guest and bariatric chairs, plus café- and counter-height stools, Accommodate adapts easily to varied applications and user needs. Stackable designs, protective wall-saver legs, and a range of finish and upholstery options provide flexibility across environments—and stand up to everyday demands.

Choice without Complexity

Accommodate offers multiple chair and stool options within one collection. Fixed arms or armless styles and curated frame finishes provide meaningful design choice without unnecessary complexity.

Dual-fabric upholstery allows for subtle contrast or bold expression—giving you more ways to define your space.

Durability for Public Places

In healthcare and public environments, seating must stand up to daily use. Accommodate is designed for durability and easy maintenance. Stain-resistant upholstery options and a clean-out space between the seat and back simplify upkeep in heavy-traffic settings. High-density molded foam, a contoured back, and a waterfall seat edge provide lasting comfort for patients, guests, students, and staff.

Shown with Arrange® tables.

Flexibility for Active Environments

From formal trainings to spontaneous conversations, teams need seating that adapts. Accommodate supports collaboration across the workplace with options designed for flexibility and movement. Café- and counter-height stools naturally draw people together, while guest chairs can be easily rearranged as layouts shift.

Paints

Features

STACKING

Ideal for multi-purpose spaces, stack up to 4 high when not in use to save space.

ARM OR ARMLESS

Choose between fixed arms to provide greater upper body support or armless models for a clean visual aesthetic.

MULTI-FABRIC

Feature different upholstery on the back and seat for greater customization.

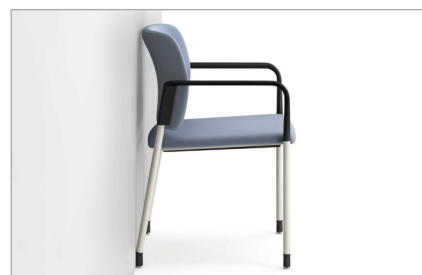

CASTERS OR GLIDES

Choose between non-marring glides for easy movement on hard surfaces, and your choice of soft of hard casters for mobility on any type of surface.

GANGING

Add a ganging bracket to help maintain neat, uniform rows.

WALL SAVER DESIGN

Wall-saver design protects walls and cabinets.
