MAKE YOUR SPACE WORK[®]

MOSAIC[™]
LOUNGE

PIECED WITH PURPOSE

Every great space starts with the right mix of seating and surfaces. Mosaic is a modular lounge collection made to be composed. High-backs, mid-backs, benches, and tables connect in straight runs, gentle curves, and corners. Together, they form a bigger picture: welcoming reception areas, cafés that draw people in, open settings for collaboration, and quiet places where ideas take shape.

Shown with Birk™ tables
and Etch™ seating.

SPACES THAT ENCOURAGE CONNECTION

From reception areas and cafés to shared spaces, Mosaic gives people a place to come together. High-back pieces carve out semi-private retreats, while mid-backs and benches keep sightlines open and conversation flowing. Integrated laminate tables keep laptops and coffee within arm's reach, so casual seating becomes a genuine place to work. However the day unfolds—a quick huddle, a focused hour, a moment to pause—Mosaic gives every space a way to say: pull up, settle in, stay awhile.

A single-seat companion to this collection, the Mosaic bucket chair is available with a four-leg wood base, or a four-star metal base with return-to-center swivel.

Mosaic's curves and Storyline's bookcases were built to nest together—turning any corner of a learning space into a place worth gathering in.

Shown with Scramble™ table and 10500 Series™ reception station.

DETAILS THAT TELL YOUR STORY

No two spaces are alike, and no two Mosaic pieces should be either. Your choices in upholstery, surface, base, and shape make Mosaic distinctly yours. Mix textures and add contrast for greater depth and character.

DIVERSE MATERIAL OPTIONS

Choose metal or solid wood legs and a full range of laminates, stains, paints, and textiles to match the mood of any environment—warm and residential or clean and contemporary.

TWO-TONE UPHOLSTERY

Pair one textile on the inside and another on the outside, adding contrast that coordinates with your palette—or makes a statement all its own.

LAMINATE TABLE INTEGRATION

Straight, Wing, 60° and 90° surfaces connect directly into the run, turning the area between seats into both a useful surface and a natural divide.

MODULAR ARM WRAP

A detail that makes the back of the sofa just as visually interesting as the front, the modular arm also doubles as a wall-saver feature.

WIPE-OUT

A tight connection between the backrest and seat means debris is easy to reach with a towel or vacuum.

ANGLED BACK

Promotes a relaxed posture without compromising productivity.

PIECES THAT BUILD THE PICTURE

High-backs, mid-backs, benches, tables, and bucket lounges—every piece designed to connect, curve, and compose.

UNDERMOUNT POWER

USB A & C options put power in quick reach. Daisy-chain capability minimizes the number of infeeds required.

*Does not accept power.

SHAPES THAT SET THE SCENE

Mosaic comes together in many ways. S-curves flow through open floor plans, booth-style runs provide a place for heads-down focus, and gathering islands anchor the room. Use these ideas to plan a layout that fits your setting.
