Detailed Precision

Accelerate's simple yet sleek design ensures a seamless journey from start to finish. With straightforward options and uncomplicated specification rules, this smart system is effortless to assemble and install with accessible fabric and paint options. And with availability through our quickship program, Accelerate delivers timeless reliability with unparalleled speed.

Dynamic by Design

Driving efficiency shouldn't mean compromising a vibrant, optimized workspace. While Accelerate's affordable bottom line makes it a smart investment for basic office needs, its range of aesthetic choices—including various panel heights, widths, connectors, finish options, thin profile, and clean lines—allows it to thrive in environments that prioritize wellness, personalization, and lasting durability.

Tailored for Success

We've all got a unique approach to work. While some people thrive in traditional heads-down spaces, others may favor transitional environments—think open areas with light scale space division that foster collaboration and mentorship. No matter how you stay productive and focused, Accelerate with Gallery Panels can optimize your environment and your day while saving valuable space on the floor plan (and potentially dollars in your budget).

TRADITIONAL
Panel-based, high-quality solution for focus and productivity.

TRANSITIONAL
Layered, stylish solution with screens for flexible collaboration.

You Can Have It All

From customizable panels and smart organization to ergonomic workspaces and convenient storage solutions, Accelerate offers the flexibility and quality you need to create an environment that reflects your unique work style. Whether you're optimizing space with integrated technology or adding personal touches with thoughtful accessories, Accelerate transforms any space into a place where efficiency thrives and creativity flourishes.

PANELS
Enhance your aesthetic with a wide variety of high quality, load-bearing fabric panels and stackers. Want a customized look? Classic woodgrain or solid laminate gallery panels offer a cohesive, contemporary look and feel.

WORKSURFACES & SUPPORTS
With fixed or height-adjustable options—plus a variety of dynamic shapes and sizes—finding the perfect fit is all in a day's work.

GLASS
How you configure a space is imperative to efficiency. With frosted and clear glass stackable or integrated glass panels, the sky's the limit with Accelerate's layout possibilities.

TECHNOLOGY
Power up with a sleek metal base rail that provides easy access to data and eliminates cord confusion.

ACCESSORIES
Make your workstation feel like a home away from home with enhanced personalization. Whether it's monitor arms to free up precious desktop real estate, markerboards to inspire creativity, or panel accessories to streamline organization, Accelerate celebrates who you are and how you work.

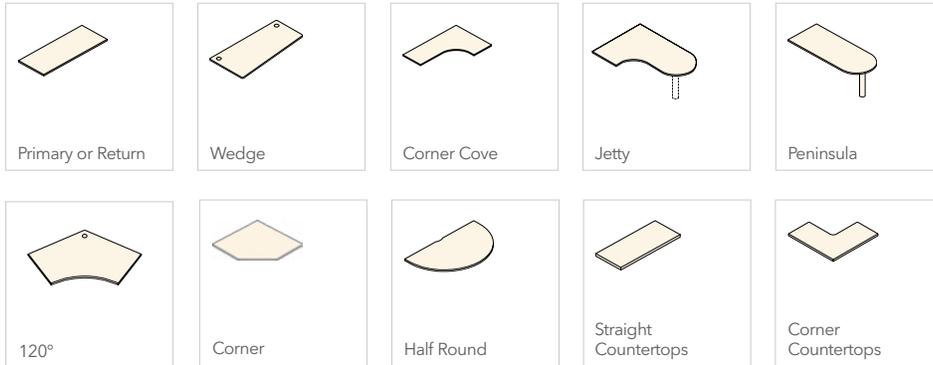

STORAGE
No space is complete without a place to keep the important stuff. Whether heavy archival organization is an office necessity or a simple personal repository is more your speed, Accelerate delivers streamlined storage for any professional environment.

Shown with Cliq™ seating, 10500 Series™ storage, Tangram™ lounge seating, and Birk™ tables.
