

Meetings Made for Everyone

Preside's unique table shapes put people first—positioning every voice, face, and perspective where it belongs: in clear view. Whether it's a two-person check-in or a cross-functional brainstorm, Preside's forms are designed to bring equity to the table.

Traditional Shape

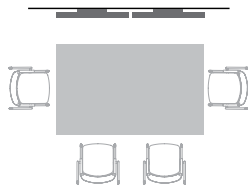

Hybrid Meeting Shape

Chevron

Angled front edge with radiused corners promotes interaction between two users and provides clear monitor viewing angles.

Best for:

- Phonebooths—angled for interaction
- Training spaces—clear monitor views

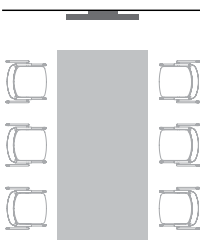

Boomerang

Wide angle supports spaces with multiple monitors while allowing users clear sightlines to one another. Radiused corners soften aesthetic.

Best for:

- Panel discussions—everyone in view
- Narrow conference rooms—open sightlines

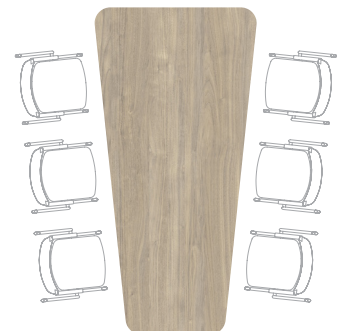

Tapered

Angled, linear profile fans users in front of the monitor, creating an optimal field of view. Radiused corners soften the aesthetic.

Best for:

- Boardrooms—inclusive, full-room sightlines

Media Tapered

A scaled-down version of the Tapered top, designed for smaller meeting rooms while still ensuring clear sightlines.

Best for:

- Compact spaces—efficient and connected
