WOOD FURNITURE

Wood owes its inherent beauty to variations in color, grain, and texture, and therefore, these variations are not considered defects. There may be minor variations from one piece of furniture to the next even though they are finished at the same time. Exposure to light and the aging process will cause a darkening of natural wood products. Light finishes on wood products do not mask the natural characteristics of wood.

The Gunlocke Company does not guarantee the exact matching of grain, pattern, and color. Gunlocke offers 800 a natural maple finish on maple, 222 a natural cherry on maple, 701 a light cherry finish on cherry or maple, 629 nutmeg walnut on walnut or maple, and 601 light walnut on walnut or maple. These finishes do not cover any of the natural characteristics of the wood, including nature's colorations, pitch pockets, and the variations of steambent wood. Merchandise will not be replaced because of these natural variations.

It is expressly understood and agreed that the buyer's sole and exclusive remedy for any and all losses or damages resulting from nonconforming goods, or from any other cause, shall be repair or replacement of defective parts, and that Gunlocke shall not be liable for damages or injury to persons or property, nor for replacement of the entire commercial unit, if repair or replacement of defective parts can reasonably render the unit conforming.

All warranty claims must be submitted in writing by the original owner via our website at <https://apps.gunlockeadvantage.com/QualityFeedback/>.

Owner may be required to produce the invoice or other evidence to establish that a claim is within the warranty period.

As stated and illustrated on the website, serial numbers are required to process a warranty claim. No person, firm, or corporation is authorized to assume for Gunlocke any liability in connection with the sale or installation of Gunlocke products except as stated above.

All other warranties, expressed or implied, are excluded. Gunlocke shall not be liable for incidental or consequential damages of any sort.

GUNLOCKE STANDARD TEXTILE OFFERING AND COM PROGRAM OVERVIEW

Customers purchasing Gunlocke seating can choose coverings from the standard fabric/leather offering or fabrics can be specified outside of the Gunlocke standard fabric offering through a simpler, hassle-free COM process.

Standard Fabric/Leather Partnership Program – select from any one of the Gunlocke standard fabrics or leather offerings listed on the website from the following textile partners: HBF, Maharam, Momentum, Ultrafabrics or Camira. For the most current standard fabric and leather offering, please visit the website at www.gunlocke.com.

COM Program – COM coverings can easily be specified and applied your seating products. Gunlocke offers two different processes for the COM program which are outlined below. The Gunlocke To Supply COM process is managed by Gunlocke and Dealer to Supply COM process is managed by the dealer.

- **Gunlocke To Supply (GTS) COM Program** – this is a process for fabrics that are not included in the standard Gunlocke offering. Gunlocke will manage the COM process with the textile supplier and will coordinate with the dealer to approve, grade/price and procure the fabric.

GTS Guidelines:

1. Select the fabric you wish to use and check the Gunlocke COM Tool on www.gunlockeadvantage.com to determine if the fabric you have chosen has already been tested and approved on the product you are interested in. The COM supplier's name, fabric pattern name, and color name will be needed to search for approved fabrics.
 - 2a. If your fabric is listed as an approved fabric, you may place your order directly with Gunlocke Customer Service. Please use the fabric code (e.g., S216426XP) noted in the COM Tool on your order in the place of the standard fabric code.
 - 2b. If the fabric has not previously been tested, you must enter a COM request. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. However, it's best to include any bid/contract information to ensure the code is set up correctly. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit. An email will be sent to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes 24-48 hours.
 3. If approved, the final email will include the GTS fabric option code and price grade. Written COM price quotes hold pricing for 90 days after issue date.
- **Dealer to Supply – COM or COL Program** – this is also a process for fabrics/leathers that are not included in the standard Gunlocke offering. The main difference is that the dealer will manage the COM process themselves and will procure the fabric from textile supplier and send to Gunlocke to upholster on the product.

COM/COL Guidelines:

1. Select the fabric you wish to use and check the Gunlocke COM Tool on www.gunlockeadvantage.com to determine if the fabric you have chosen has already been tested and approved on the product you are interested in. The COM supplier's name, fabric pattern name, and color name will be needed to search for approved fabrics.
2. If your fabric is listed as approved, please reference the upholstery requirements listed in the pricer.
3. If the fabric has not previously been tested, you must enter a COM request. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. However, it's best to include any bid/contract information to ensure the code is set up correctly. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes 24-48 hours.
4. If approved, the final email will include the Dealer to Supply fabric option code and the COM or COL price grade. Written COM price quotes hold pricing for 90 days after issue date.
5. The dealer is responsible for sending the COM fabric to Gunlocke. Fabric must be marked with "COM – Dealer to Supply", dealer name, order number and seating model #. COM textile should be shipped to the address below the same time as the order submission and reference tracking information on order, to prevent production delays.

HNI Textile Distribution Center - Dealer PO Number
Attn: COM Production Yardage
301 Mulberry Ave.
Dock Doors 20-22
Muscatine, IA 52761

6. All COM "Dealer to Supply" orders will be charged grade 4 pricing. Dealers will pay for the COM fabric separately.
7. All COM fabric must be sent on a fabric roll.
8. Once the COM fabric is received, the order will be scheduled in production and acknowledged with a ship date.

Specific to DTS orders - the customer should send only the amount needed for the order. Fabric should arrive no sooner than 4 weeks in advance of order placement. Excess yardage, or yardage not attached to an order will be disposed of at Gunlocke's discretion.

Any canceled orders are subject to cancellation charges up to the full value of the Gunlocke product canceled. Gunlocke will determine the actual cancellation charge at the time the cancellation is requested.

COM | CUSTOMER'S OWN MATERIAL

1. Gunlocke cannot be held responsible for performance, color accuracy, or weaving of COM materials. All responsibility for COM shipments is between the purchaser and the textile source.
2. Gunlocke assumes no responsibility for the flame retardance of any COM. Customers are solely responsible for making sure that COM shipments comply with all applicable codes and regulations.
3. Gunlocke reserves the right to reject fabrics or leathers we deem unsuitable for upholstery. When this occurs, the customer will be notified in writing with an explanation of the problem. Gunlocke cannot be held responsible for any unsatisfactory results in the application of a COM/COL, and a written release from the customer will be required before the order is processed.
4. Please contact Gunlocke Customer Service if you are planning on having any fabric applied in a non-standard technique. (I.E. using the back side as the face), or have special requirements.
5. Fabric alterations such as laminated backing or fire coding may result in differences in upholstery appearance or stiffness.

YARDAGE REQUIREMENTS

Yardages shown in price list are for non-directional fabric based on 54" wide plain fabric (no repeat pattern). A chart is provided on page 14 to assist in determining the additional COM yardage requirements. Please add the indicated percentage to the yardage shown beside the style number in the price list. This guide will accurately cover most COM orders, but there will be instances due to unusual repeats or designs that additional yardage may be required. **Gunlocke will not be held responsible for any additional COM that may be required. Please contact Customer Service for quotations on fabric requirements.**

SELF-DECK PLATFORMS

Self-covered platforms in COM are available at no upcharge. Allow additional yardage in the following amounts for 54" material:

One seat sofa	1 yd.
Two seat sofa	1.5 yds.
Three seat sofa	2 yds.

FABRIC APPLICATION

Cutting direction is based on the fabric width and the way the fabric is cut from the roll and applied to Gunlocke products. There are two cutting directions: Vertical (cut-right) or Horizontal (railroaded). Gunlocke reserves the right to railroad (or apply the fabric according to the weave) whenever possible to avoid seams in large upholstered areas and/or single cushions units. If a fabric is questionable, a cutting of adequate size allowing full repeats must be sent to Customer Service for approval.

COL | CUSTOMER'S OWN LEATHER

Customer's leather must meet standards set by Gunlocke. All hides must be #1 quality, bear no greater than three defects, and yield a minimum of 45 usable square feet per hide. Imperfections that penetrate the hide, brands, large marks, burns, excessive healed over scars and scratches, and excessive fat wrinkles are considered defects.

COL SPECIFICATIONS

Leather footage requirements listed in the price list refer to usable leather square footage that meet the standards described above. Calf hides must be at least 30 square feet of clean and usable matching hides. When specifying calf hides, add 30% to footage requirements. **Gunlocke will not be held responsible for any additional COL that may be required.**

LEATHER SEAT PUDDLING

Leather is a natural material which has elasticity and will form according to usage. For example as a leather seat "breaks in" (similar to leather shoes) stretching may occur. This is an inherent quality of natural leather and is not considered a defect.

LEATHER LOGOS

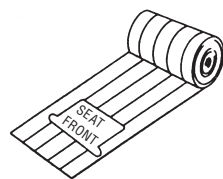

Leather is a natural material which has elasticity. The degree of stretching occurring in the upholstery process varies by model and may reduce the visual depth of the logo detail.

EMBROIDERED LOGOS

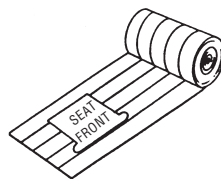

Certain logo geometry may limit threads per inch on embroidered logos. **Logos on Fabric and Leather have a three year warranty see page 8.**

NOTE

COM and COL orders cannot be scheduled for production or acknowledged as to ship date until COM has been received and approved by Gunlocke. Gunlocke will not warrant application and upholstery technique

PLEASE REFER TO YOUR FABRIC SWATCH CARD FOR HORIZONTAL AND VERTICAL REPEAT REQUIREMENTS.

Fabric Width	Plain Fabric	2"-10" Repeat	11"-20" Repeat	21"-25" Repeat	26"-30" Repeat	31"-37" Repeat	38"-45" Repeat	46"-52" Repeat
54"	0%	10%	15%	20%	25%	30%	35%	40%
52"	15%	20%	25%	30%	35%	40%	45%	50%
50"	25%	30%	35%	40%	45%	50%	55%	60%
48"	35%	40%	45%	50%	55%	60%	65%	70%
45"	45%	50%	55%	60%	65%	70%	75%	80%

Fabric Width	Plain Fabric	2"-10" Repeat	11"-20" Repeat	21"-25" Repeat	26"-30" Repeat	31"-37" Repeat	38"-45" Repeat	46"-52" Repeat
36"	60%	65%	70%	75%	80%	85%	90%	95%

Depending upon the pattern repeat, it may be necessary to cut the fabric vertical (cut-right). This will require 15% additional fabric.

To calculate the correct yardage with repeats (horizontal and vertical), add the horizontal repeat to the vertical repeat for total yardage required.

When calculating repeat, round up to nearest .5 yard.

For example:

A fabric width of 54" with a 8" vertical repeat (requires 10%) + a 20" horizontal repeat (requires 15%) = total additional yardage equals 25%.

Therefore, if the chair requires 2 yards of fabric, multiply 2 by 125% (or 2 x 1.25). Then 2.5 yards will be yardage required.

CUT YARDAGE PROGRAM

All Gunlocke Branded textiles and leathers are available on a cut yardage basis.

**FLAMMABILITY GUIDELINES
UPHOLSTERY COVERS**

Gunlocke makes every effort to ship high quality product, free of defects in material and workmanship. Great care is taken in selecting only first quality upholstery materials from reputable suppliers.

Upholstery material is warranted for 3 years against unusual wear or deterioration; there is no warranty against fading, normal wear, or customer-induced cuts and tears.

Leather is a natural material. There may be minor variation in markings such as growth wrinkles, healed scars, and grain patterns. Also, subtle variations in the tanning and dyeing process can be seen from one hide to another.

Combinations of Upholstery Covers

Contact Tailored Solutions (gunts@gunlocke.com) for assistance with pricing of fabric, vinyl, leather or upholstery combinations.

SPECIAL TREATMENT/ FLAMMABILITY

Technical Bulletin #133 is a flammability regulation that may be required or requested for certain areas or applications. Most standard Gunlocke fabrics, when used in combination with proper components, can meet the requirements of the composite test for California technical bulletin #133. The composite test requires the use of a full-scale mock-up/sample that in all respects (including fabrics, filling materials, combustible decorative parts and furniture style) reflects the construction of the actual furniture required for a specific area or application.

While Gunlocke has tested several model/upholstery combinations for TB133, not all possible combinations have been tested or certified. Please contact Customer Service to determine if the specific model/upholstery combination you are working with has been tested or if a new test is required. In addition, all COM fabrics must be evaluated on an individual basis and may also require testing. Testing is available as follows:

Specific model & upholstery

- Fire barrier is available as a special treatment. If required, please contact Gunlocke Tailored Solutions to quote as a special: gunts@gunlocke.com.
- Please check with Customer Service to verify testing has been completed with your model and fabric selection.
- Cost of testing a chair is \$850 NET, plus the cost of chair and fabric.
- Additional lead-time for testing for CAL 133.
- Additional lead-time for fire barrier cloth is 3-4 weeks.

*Note that specification of the fire barrier cloth does not in itself provide certification. Testing must be completed and pass for the specific model/upholstery combination to obtain a certificate. Once testing is completed, Gunlocke will provide a certification letter specific to the sample tested for CAL 133.

Special Flammability Code Requirements

Please inquire for pricing and lead time.

SWIVEL SEATING

Product Specifications

SWIVEL ERGONOMICS

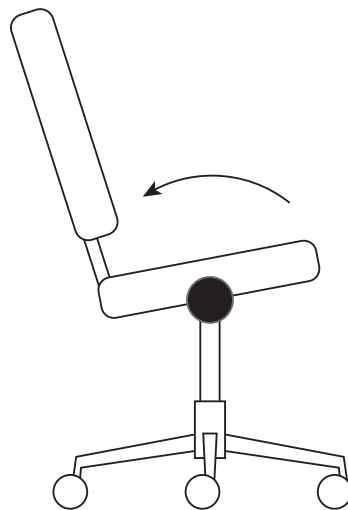

Dual Point Synchro Tilt

In Synchronous tilt, the backrest and seat pan of a chair reclines at a different ratio (usually 2:1) as you lean back. For every 10 degrees of recline in the backrest for example, the seat pan only tilts back 5 degrees

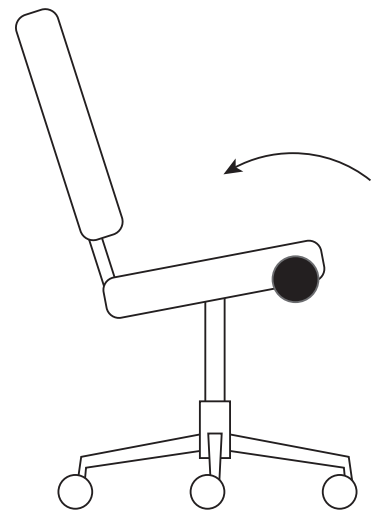

Single Point Mid Tilt

Mid tilt employs a basic tilt mechanism that's located in the center or back of the seat to tilt the seat pan and backrest in tandem. The angle of the front of the seat increases at the same rate as the backrest.

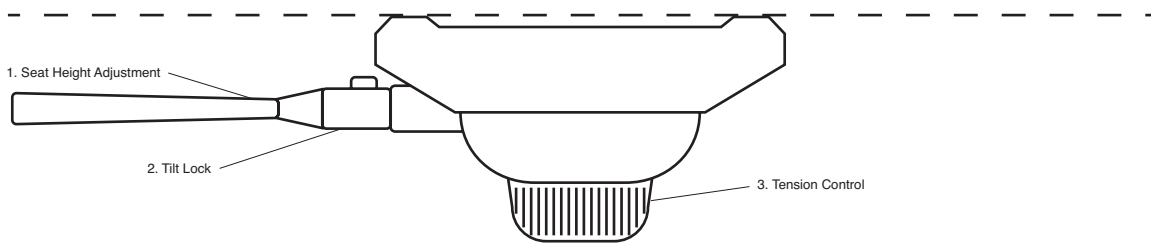

Single Point Knee Tilt

With a Knee tilt, the pivoting point is located near the very front of the seat, resulting in a wide angle tilt that still keeps the front of the seat relatively level. Knee tilt combines some qualities of synchro and mid tilting. With the pivoting point near the front of the seat, your feet remain on the ground even with a larger recline in the seat pan and backrest.

CONTROL HOW TO'S

Mid-Tilt and Knee Tilt Mechanism

1. SEAT HEIGHT ADJUSTMENT

Slightly lift body weight off seat and pull up on paddle to increase or decrease height. Release lever to lock into desired height.

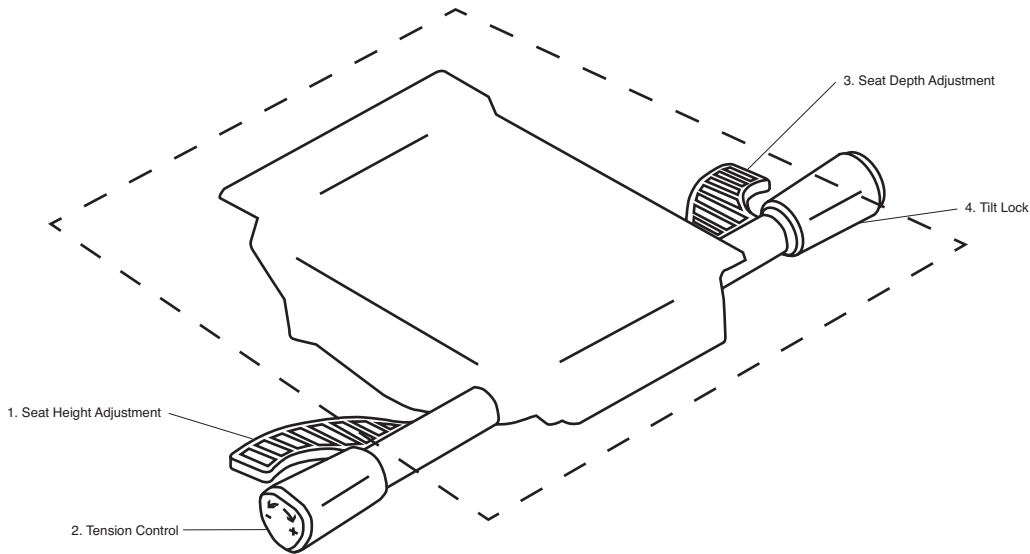

2. TILT LOCK

Push handle in towards center of control. This will lock the position of the tilt. Pull handle out to allow for free tilting.

3. TENSION CONTROL

Decrease tension by rotating the knob left. Increase tension by rotating the knob right.

Synchro-Tilt Mechanism

1. SEAT HEIGHT ADJUSTMENT

Slightly lift body weight off seat and pull up on paddle to increase height, or remain seated and pull up on paddle to decrease height. Release paddle to lock into desired height.

2. TENSION CONTROL

Extend Tension Control knob out to adjust. Increase tension by rotating the knob forward. Decrease tension by rotating the knob rearward. Push tension control knob in to original position when finished adjusting tension.

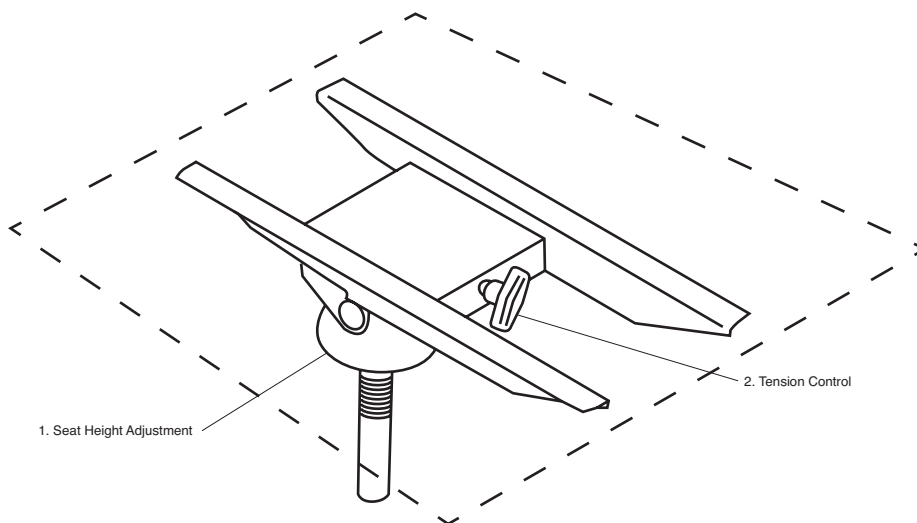

3. SEAT DEPTH ADJUSTMENT

Pull up on lever while seated and slide forward or rearward to desired depth. Release paddle handle to engage.

4. TILT LOCK

Lean back fully back in chair, then rotate handle forward to engage lockout. Rotate handle forward, then lean back into the chair to release the tilt lock feature.

Manual Mechanism

1. SEAT HEIGHT ADJUSTMENT

Slightly lift body weight off seat and rotate bell. Rotating to the right will lower the seat. Rotating to the left will raise seat.

2. TENSION CONTROL

Increase tension by rotating the knob to the right. Decrease tension by rotating the knob left.
