K-12 and Higher Education

Make your space work.

HON.
A Smarter Approach to Learning Spaces

Different ways of learning. New methods of instruction. We’ve paid careful attention to the needs of young minds. From the classroom to the cafeteria and every place in between, our flexible solutions are thoughtfully designed to support every teaching style and type of educational space to enhance learning opportunities for all students.

Expanding the Potential for Learning

Education has never been one-size-fits-all. Every student has a unique skill set that makes them special and every teacher has an approach to the classroom that sets them apart - that's what makes learning so much fun. HON has gone above and beyond to design exceptionally adaptable, flexible, durable furniture that works in any type of learning environment to encourage productivity, creativity, and connection for anyone who's hoping to change the world someday.

**COMPREHENSIVE**
HON offers a holistic portfolio of solutions for every student, every teaching style, and every type of learning space—from the classroom to the front office and all the areas in between.

**CONSISTENT**
With year-round manufacturing facilities and best-in-class fulfillment solutions, HON works closely with our Trade Partners to ensure you reliably receive your furniture on time, every time.

**COST-EFFECTIVE**
HON builds quality products designed to withstand active minds and bodies. Durable solutions backed by a lifetime warranty ensures that every purchase is a wise investment.
Activities that encourage students to share knowledge with each other, solve problems, and engage in creativity create successful life-long learners. To support learning in all its forms, K-8 settings need to be designed for engagement and adaptability.
Learning by Design
Classroom design features such as choice and flexibility can improve students’ academic performance by 16%.

Build™ desks shown with SmartLink® storage, desk, and whiteboard and Motivate® seating.
K-8 Learning Spaces

On The Move

Young learners thrive in classroom settings that foster connection and allow for movement. Flexible furniture that can be rearranged for small group projects and collaborative instruction keep active minds and bodies engaged and on task.
New and Improved
63% of teachers desire collaborative spaces and flexible furniture as top classroom improvements.
Source: MDR, State of the K-12 Market, 2018
Preparing for college and the world beyond begins in high school. Help students foster their futures in diverse, flexible learning environments that simultaneously support creative individuality and healthy group participation.
Room To Grow
94% of surveyed educators believe space impacts learning.

Learning Spaces

All Hands On Deck

Gone are the days of sleepy lectures – today’s college classroom is all about healthy debate and thought-provoking group projects. Students need comfortable and adaptable learning environments that encourage creative engagement, intense focus, and infinite possibilities.
Mobility is absolutely essential in modern classrooms. Break students into groups or arrange the chairs in a semicircle for class discussions without wasting valuable class time.

Expressing creativity and developing critical thinking skills through exploration, construction, and tinkering requires a unique set of tools, and Makerspace solutions deliver with highly durable mobile tables and adaptable storage that takes hands-on learning to new heights.

Build™ Makerspace tables and seating.

Makerspace

Where Imagination Takes Flight

Expressing creativity and developing critical thinking skills through exploration, construction, and tinkering requires a unique set of tools, and Makerspace solutions deliver with highly durable mobile tables and adaptable storage that takes hands-on learning to new heights.
Problem Solved
75% of teachers believe fostering creativity in learning develops students’ problem-solving skills.
Source: Gallup, Creativity in Learning, 2019
High Tech
63% of US high school students are using digital learning tools at school every day.
Source: Statista.com, 2019
Students need a variety of learning environments to support not only self-directed individual study but also group project collaborations. Put the future at their fingertips with flexible and adaptable multimedia center furniture that works as diligently as they do.
Today’s undergrad isn’t watching the world go by - they’re creating a whole new one. Because learning goes from individual immersion to intense group collaboration in the blink of an eye, students need flexible multimedia environments that spark creativity, foster focus, and inspire innovation.

Tech Support
66% of educators agree that using digital content meets the needs of more learners.

Get Interactive

Higher Education Multimedia Center

Contain® storage shown with Motivate® seating.
Social Café

Refuel and Recharge

Not all education takes place in the classroom – chatting over a cup of coffee with a friend or grabbing burgers with the group in a relaxed and comfortable environment can spark great ideas and create meaningful connection not always found at a student desk. Get inspired in a space that celebrates not just how we learn, but how we live.

Preside® tables shown with Motivate® and Flock® seating.
Better Together
90% of students believe they learned best through collaboration in their math and English classes.
Source: American Institutes for Research (AIR), 2018
In-Between Spaces

**Great Expectations**
77% of parents feel teaching approaches that inspire creativity have a bigger payoff for students.
Source: Gallup, Creativity in Learning, 2019
Sometimes you just need to get away from it all. Connect and create in spaces designed not just for work collaboration, but also relaxation and socialization. Whether they’re lounging or standing, students can share ideas the way they were meant to - on their own terms.

Touch Base And Take Charge
Productive employees always benefit from thoughtfully designed office spaces that maximize individual productivity yet support creative collaboration. But school administrators also understand that comfortable and inviting front office areas offer students, parents, and the community the warm welcome they want and deserve.
All The Feels
97% of principals believe social and emotional learning improves students' academic achievement.
