# Veneer

## Veneer Finishes

Wood owes its inherent beauty to variations in color, grain, and texture. In our finishing process, we attempt to accent the natural beauty of wood veneer. As a result, there may be minor variations from one piece of wood to the next, even though they are finished by the same process. Samples of veneers may vary from the finished product due to these natural differences, as well as exposure to light and aging.

*NOTE: The photographic reproduction of finishes is a high speed printing process. Actual samples should be obtained before making finish selections. Please refer to current HON List Pricer for availability.*

*Color may vary due to screen quality.  
To ensure complete color accuracy,  
please order a sample.*
