Clarity®

Adaptable Solutions

Clarity is a seating solution that delivers beauty, performance, comfort, and versatility. This simple, flexible design is the result of extensive user testing to understand how office chairs could inspire collaboration.

Essential Elements

Clarity has a minimal design and includes only the necessary pieces and nothing more, balancing form plus function in a choice of three chair models. Add style anywhere from reception to conference room, workspace to private office.

Mesh is continuous from the seat to the back for an uninterrupted look.

A single lever controls task chair seat height. Other adjustments are automatic.

The durable aluminum base is available in painted and polished finish options.

Optional open arms allow posture changes and user movement in the chair.
