Co|Ho Work Lounge

Co|Ho Work Lounge designed by **Bruce Fifield**

WORKDAY FLEXIBILITY

Casual, collaborative work has become commonplace across almost every environment where we work. The need for both informal gatherings and individual getaways are important for the work day.

Coffee-House Comfort, Workplace Sensibility

Co|Ho is a versatile, lounge chair that supports both individual and collaborative work across a wide variety of settings. Although the residential furniture commonly seen in destination workspaces can be comfortable and inviting, often times it's not designed to effectively support the various postures that come with individual and collaborative work. Co|Ho's light scale design and flexibility offers users the choice to concentrate or collaborate comfortably, bringing the sentiment of a coffee house into the setting of the workplace.

SOFT, INVITING SEATING

Soft, comfortable cushioning provides unparalleled support for longer-durations of focused or team work.

SMART DESIGN

The automatic, return-to-center feature ensures order even in the untidiest of common spaces.

WORK OR CASUAL FUNCTIONS

The optional, 360° tablet arm supports both right-handed and left-handed users.

Co|Ho Statement of Line
