

# Mazzoni Center

HEALTHCARE

### Delivering Meaningful Change

As they moved to a new location, Mazzoni Center wanted to update their headquarters to better reflect their brand and the work they do for their community.

### Fostering New Behavior

The larger building provided space for Mazzoni to add more exam and counseling rooms, allowing them to provide care to more patients. Updated, open workstations support employee collaboration and visual transparency, while a new “Town Hall” space serves as both a conference space and a shared hub for community events.

## Installation Details

### Location

50,000 sq. ft.  
Philadelphia, PA
