

Aquent

MARKETING & MEDIA

Delivering Meaningful Change

After moving to a new location with a large, open layout, Aquent wanted to use a blend of furniture and space types to increase collaboration and inter-department communication. Flexible, innovative furniture in a variety of colors and finishes provide support while enhancing their brand aesthetic.

Fostering New Behavior

Taking a unique hoteling approach, Aquent developed different neighborhoods, each with its own unique look and feel, for employees and teams to choose from. The juxtaposition of adjoining open and closed spaces allows users to have the best of both worlds. Rooms featuring glass walls maintain an open, light-filled aesthetic while providing audio privacy for phone calls and meetings.
