OVERVIEW

Two-Thirds™

# Stand Out or Fit In

Designed to complement any aesthetic, Two-Thirds is a team player, seamlessly fitting into a variety of applications wherever or however needed. Expressive yet sophisticated, the collection of poufs, benches, and tables offers flexibility and choice for everchanging space needs. From the lobby to overflow seating in the conference room to kick-back collaboration areas, Two-Thirds easily arranges and rearranges with just a simple push, pull, or nudge.

**1** A new look for nooks. The efficient footprint makes Two-Thirds perfect for underutilized spaces.

**3** Two-sided seating gives users a place to work alone or together and a choice in posture.

**5** Pull up a seat for quick desk-side meetings or group collaboration, then simply store away.

**2** In a pinch, poufs are ready and waiting as additional seating in spaces prone to overflow.

**4** Simple shapes provide order within the space, while expressive design creates personality.

**6** Mix-and-match size, shape, and color to fit your style, preference, and group activities.

## Your Company's Culture on Display

Flexible and movable, bold or subtle, Two-Thirds solves everyday needs in unexpected ways.

Working in a variety of applications that easily adapt as needs change, the Two-Thirds collection is perfect for concentration, perching, lounging, or kicking up your feet. The poufs, benches, and tables are designed to work together, both visually and functionally. Single- or dual-upholstery options allow for a variety of looks, providing the opportunity for pops of color or texture and the ability to make a bold statement.

Position Two-Thirds throughout the environment and let users decide where and how they want to sit.

# Calm the Chaos

Two-Thirds is as visually balanced as it is easily adaptable.

These lightweight poufs, benches, and tables give your team the ability to mix, match, and move the pieces into configurations that work for their unique needs. The perfect solution for highly utilized multi-use spaces, the block poufs and rectangle tables relate to one another so that they can be combined to create harmony and order no matter how they move throughout the day.
