BRIEFING™ CONFERENCE

The rise of mobility and agility has not eliminated the fundamental need to assemble the right people in the right place. Briefing conference tables help create the spaces where ideas emerge and decisions are made.

BRIEFING™ CONFERENCE

Design by IDA DESIGN | *Principal* MITCH BAKKER

CONFERENCE TABLES SNAPSHOT

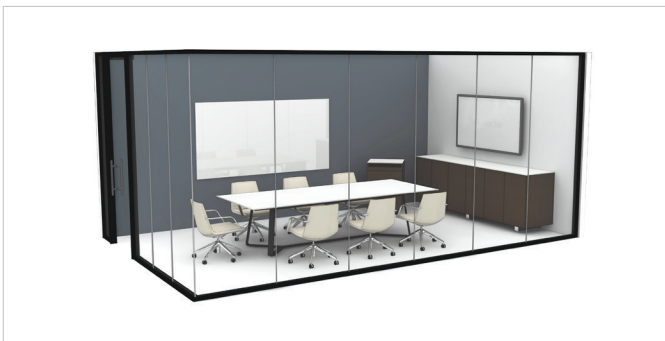

The centerpiece for consequential assemblies.

STYLISH INTEGRATION

Conference rooms are nearly always adjacent to other workspaces, and they need to articulate a unified style statement. Briefing conference tables enable design and material selections that create the functionality and aesthetic integration for well-utilized, productive spaces.

SCALE COUNTS

Today's conference rooms must comfortably accommodate a varying number of meeting participants, and Briefing tables offer the shapes and sizes to match that range. Choose the top and base types, table heights, and technology options that best align with the needs of your conference settings.
