## BRIEFING™ PRIVATE OFFICE

Private offices are no longer merely about status.  
They are spaces dedicated to concentrated  
work and discrete conversations.  
Tables in these offices must embody style  
and the highest levels of performance.

# BRIEFING™ PRIVATE OFFICE

Design by IDA DESIGN | Principal MITCH BAKKER

## PRIVATE OFFICE TABLES SNAPSHOT

Adding tables adds functionality.

### ENHANCING PERFORMANCE

An enclosed office featuring a desk benefits from additional tables for expanded capabilities.

The Briefing table collection provides a range of shapes and sizes that expands available worksurfaces and supports the tasks at hand in the private office.

### ELEGANT INTEGRATION

When the aesthetic is set, adjacent tables must complement and enhance the style of the office.

The wide variety of Briefing shapes and base styles, the palette of colors, and the selection of materials offer a portfolio that creates a stunning setting.
