# SILEA<sup>EH</sup> STYLING

Design by IDA DESIGN | Principal MITCH BAKKER

## STYLE PROFILES

The Silea<sup>EH</sup> platform enables the creation of an array of worksetting types, from enclosed spaces to team collaborative settings to community gathering spaces. The carefully curated and compatible material and finish options support design flexibility and application variations.

Choice, unlocked. Design potential, expanded.

### SLEEK SOPHISTICATION

The versatility and creative integration of these components support a variety of workplace configurations. This stunningly attractive profile is an invitation to productive work.

### CLASSIC CHARACTER

An array of features and options enables this collection to combine efficiency and style. Create a workplace that articulates classic elegance but also includes the latest in performance, including height adjustability.

### ESSENTIAL ELEMENTS

The clean aesthetic conveys both efficiency and stature, while supplying the features and functionality that enable productivity.

### MODERN SIMPLICITY

Transform the conventional into the smartly simple by integrating an attractive foot option. A striking profile that complements today's designs.
