Fit™

Fit, for Today

The always-popular appetite for a clean, minimalist aesthetic is a perfect match for a new light-scale panel system. Fit is a frameless, hard-surface laminate product that delivers versatility and superior features. It removes the bulk and restores the brilliance of panels.

Everything You Need

Fit thoughtfully integrates worksurfaces, storage, boundary management, work tools, and power/data access in a solid-surface system with a modern feel.

Design Versatility

An array of surface finishes and color combinations enables Fit to align with a wide range of styles. Dressed up or subtly subdued, Fit can match virtually any design aesthetic.

Enhancing Health

Fit uses thin laminate-panels to create boundaries that still offer easy access and healthful separation.

More with Less

Get more from your square footage with Fit. The lean footprint, minimalist component design, and flexible configuration options mean maximizing functionality in any workplace. The versatility of Fit components creates integrated worksettings that efficiently manage technology and adapt to a variety of workstyles.

For a quick touch down, Fit creates an efficient space to arrive, produce, and move on.

For extended work periods, Fit integrates with height-adjustability, complemented by ample storage and privacy.

For easy and productive team collaboration, Fit incorporates essential work tools and technology to enable effective communication.

For efficient use of space without sacrificing performance, Fit accommodates shared settings that deliver comfort and support user productivity.

First and Lasting Impressions

A Fit reception configuration reflects a millwork aesthetic to make a style statement for an impressive welcome experience and also provides all the functionality needed for an effective workspace. From connecting to storage to ergonomic comfort, Fit makes the right impression.

Features Forward

From easy connectivity to an array of creative accessories, Fit delivers everything necessary to support today's work processes. Each accessory and element is the outcome of cohesive and smart design.
