

Make your space work.

Astir™ Collaborative Work Fact Sheet *Stir-up Collaboration*

Top Features

- Low-and-high-back models feature seating with an upright, supportive posture
- Unique high-back screens create a quiet, comfortable space for individual focus or private meetings
- Modular design, with multiple seat sizes, arm options, and back heights allow for numerous levels of customization

Where It Works

- Astir's simple, clean design functions in open spaces such as café and common areas
- This collaborative work collection offers supportive seating flexible enough to fit into your existing office space
- Astir creates accessible meeting areas beyond the conference room and plenty of ways to collaborate with social distancing in mind
- With its supportive posture, Astir works perfectly with Birk™ tables to create collaborative workspaces away from your desk

Product Details

- Seat height and back angle are scaled for an upright working posture
- Choose from One+, Two- or Three-Seat Lounges in low or high-back options
- High-back screens available in knit mesh or fabric options provide visual privacy on back and sides
- Fabric high-back screen option available in cleanable fabrics (see HON's cleaning guide)
- Choose from three different leg styles to customize your look - Wood Sled, Dowel Wood or Post Metal options
- Two- or Three-Seat Benches add extra seating for commons or reception areas
- Pouf model functions as both impromptu seating and a place to kick up your feet
- Easily replaceable seat cushion enhances cleanability and allows for quick changes
- With the multi-fabric options, seat cushion and frame can be specified in different fabrics for a modern aesthetic
- Birk tables and Astir seating heights were created to work seamlessly together
- Add an optional power module to route power directly underneath the seat
- Designed in partnership with HON and QDesign, leaders in industrial design
